Sir,

Subject Administration Report of the Mysore City Municipality for the year 1943-44

Adverting to your letter No L 3701-2 dated the 22nd October 1944 requesting to expedite the submission of the Administration report of the City Municipal Council for the year 1943-44, I have the honour to state that as required by Section 215(2) of the City Municipalities Act, the report was prepared on the 17th October 1944 and placed before the Municipal Council for consideration at the Special Meeting convened therefor on the 25th October 1944 The Municipal Council, after considering it, at the meeting, suggested slight modifications and it was unanimously resolved that the modified report may be sent to Government,

I enclose herein the modified Administration Report of the City Municipal Council for the year 1943-44 with all the appendices and the statistical statements relating thereto, in triplicate

A copy of the resolution of the Municipal Council in this behalf is also enclosed

I have the honour to be,
Sir,
Your most obedient servant,

R Ramachandra Rao
~~PRESIDENT~~

MYSORE CITY MUNICIPALITY

Report on the Administration of the Mysore City Municipal Council, for the year 1943-44

PART I

1 Important events during the year

There were a good many important events during the year under report and the work connected therewith went off successfully

(i) As usual the Birth Day and the Dasara Festivities were celebrated with pomp and great eclat, and special arrangements were made to provide the amenities to the people that resorted to the City on the Dasara occasion The Municipal Council submitted their loyal felicitations and offered flowers to His Highness the Maharaja on the Procession Days

(ii) Their Excellencies the Viceroy and the Marchioness of Linlithgow, visited the City in August 43, and the Municipal Council ~~submitted~~ presented flowers to Their Excellencies on their arrival at Mysore on the 20th August 1943 and they left the City on the 22nd August 1943 The City was beautifully decorated for the occasion and all the roads were kept trim and in a good sanitary condition As per Government Order No L 2146-7/M1 157-43-2 dated the 18th August 1943, the Municipality was given a lumpsum grant of Rs 15,000/- for the special works undertaken in the City in connection with the Viceregal Visit

(iii) The following distinguished and high personages visited the City during the year and they were taken round the important Institutions in the City

(a) His Highness the Maharaja of Travancore paid a visit to the City in January 1944 and He was graciously pleased to say that He was much impressed with the progress that the City had made since his last visit

(b) The Consul-General of the Republic of China Dr Chun-Jie Pao visited the city in the month of March, 1944 He was greatly impressed with the City and stated "My visit to Mysore is very instructive and will go a long way in my memory " He expressed his appreciation towards the City in all its achievements, by an announcement through the Akashvani, Mysore, at the time of his departure from the City He was particularly impressed with the activities of the Maternity and Child Welfare Centre and the Poor Feeding arrangements so much so that he gave a donation of Rs 10,000/- Out of this donation, a sum of Rs 5,000/- has been sanctioned by the Government towards the feeding of poor students.

(c) His Highness the Jam Saheb of Nawanagar who visited the City in June 1944, evinced a very keen interest in the schemes undertaken in the City and the several activities connected therewith and was graciously pleased to say that He would pay a second visit to the city

(d) In the same month of June 1944, His Highness the Maharaja of Kotah visited the City He saw the several Institutions in the City and expressed much appreciation

IV

(~~VII~~) The Second City Magistrate's Court, was ordered to be continued for a further period of one year from 1-9-1943 in Government Notification No P 1276-80/C & S 45-48-2 dated 20-8-1943

V (~~VIII~~) The Municipal Council while expressing its deep sense of sympathy with those people of Bengal who became victims to starvation owing to severe famine that ravaged the country sanctioned in their resolution dated 25-9-1943 to donate a sum of Rs 1,000/-, to the Bengal Famine Relief Fund This was approved by Government in their order No L 5100-1/M1 99-43-71 dated 16-11-1943

VI (~~VIII~~) The dearness allowance sanctioned to the employees of the Local Bodies was ordered to be continued during the year 1943-44 as per G O No L 3889-912/M1 146-43-2 dated 3-10-1943 and enhanced

rates were allowed with effect from 1-9-1943 as per G O No Fl.4-63 S & A 16-43-3 dated 5-10-1943

This concession of granting the Dearness allowance on a higher scale was extended to the wholetime employees in receipt of salary of over Rs 80/- and not exceeding Rs 150/- per mensem with effect from 1st December 1943 till the end of June, 1944 as per Government Order No Fl 2556-2615/S & A 16-43-7 dated 20-12-1943

VII ~~(III)~~ The provisions of the Mysore Food Rationing Order were extended to the area comprised within the limits of the Mysore City during the year as directed in Government Notification No B D 2295/104-43-7 dated 21st October 1943 The President of the City Municipal Council was in this connection appointed as the Rationing Officer - -

Contd on page 4

In this connection a proposal was made to Government by the Municipal Council to relieve the President of the extra Ex-officio functions but this was not accepted by Government as intimated by the Law Secretary in his letter No L 8257 dated 11-2-1944 In connection with the introduction of the Rationing Scheme, the Municipal Council, held a Special Meeting on the 25th November 1943, and after consideration of the several aspects of the question, formulated certain proposals offering the services of the Municipal Council for the successful conduct of Rationing work, the President in Council, being made to constitute as the Rationing Authority and suggesting among other things the enhancement of the rationed quantities These proposals were submitted to Government, and the Secretary to Government in the Development Department intimated in his letter No SD 608/A 102-43-729 dated 10/11th March 1944, that Government were not in favour of accepting the fesolution regarding the appointment of the President in Council as Chief Rationing Authority The other proposals made in this behalf were not also accepted But all the same the Council was ever ready to render its whole-hearted service and co-operation to work out the Rationing system successfully if their request had been granted

With a view to alleviate the distress caused to the poor people by the introduction of Rationing a Poor Feeding Committee was constituted and subscriptions were raised from philanthropic gentlemen The Committee met as often as was necessary to improve the working scheme The Municipal Council sanctioned a sum of Rs 250/- p m till the close of the year towards the poor feeding fund This donation has been continued during the current year also The subscriptions raised, amounted to Rs 8,000/- besides monthly subscriptions, at the close of the year It was at first arranged to start a poor feeding kitchen in the Municipal Office premises As people did not respond to the advertisement of getting the food at this kitchen by going over there this idea was abandoned and arrangements were made to give 1/8 seer of rice to each deserving person The quantity of rice given under this arrangement was subsequently - raised to 1/4 seer per adult and 1/8 seer to a child The total number of families who were given relief under this scheme upto the close of the year worked out to 128 comprising of 250 persons of different castes, many more people are coming for help and the number has latterly gone up very high and every endeavour is being made to raise more subscriptions towards the poor feeding A sum of Rs 1570/- was spent under this arrangement by the end of the year

His Highness the Mahaŕaja of Mysore was graciously pleased to donate a sum of Rs 2,000 p m towards feeding the disabled and destitute persons in the city

Out of this grant, arrangements are made to feed the poor by distributing cooked rice everyday, at convenient centres and the supervision over this work is assigned to the Revenue Officer of the Municipality The feeding arrangements are entrusted to the management of a Committee consisting of officials and non-officials These feeding arrangements have greatly alleviated the distress caused to beggars in the city and beggary has very much decreased

FUEL SUPPLY

Another acute difficulty that arose during the latter half of the year was with regard to fuel supply The problem of making satisfactory arrangement for the supply of fuel in the city, was engaging the attention of the Municipal Council

(continued)

for sometime past No satisfactory arrangements existed for the supply of fuel to meet the adequate needs of the citizens In pursuance of G O No AF 7671/FP 220-41-3 dated 22-7-1942 the fuel depot opened by the Forest Department was the only Government Depot available in the city at the beginning of the year For want of facilities in transporting the fuel from the Forests, the supply to the private Depots became short In consequence, the entire demand of the City could not be met by the only Forest Depot The few fuel carts that came to the City were all snatched away by the Dallalies and sold at fancy prices Thus the scarcity of fuel in the City became very acute especially in the latter half of the year so much so that the price of the fuel went up as high as 1½ maunds per rupee The poor and the middle class people found it extremely difficult to get fuel even at this high rates At this juncture some remedial measure to alleviate the distress caused to the people was urgently called for The Municipal Council was also repeatedly urging for the opening of a few Fair Price Depots in the City, but owing to the absence of transport facilities and the consequent non-supply of sufficient stock of fuel, this was not possible As the situation became grave and urgent relief was called for a request was made to Government to allot a few lorries under the Lease/Lend system, for transporting fuel Government were pleased to allot two lorries for the purpose The Municipality purchased the same at a cost of Rs 14,000/- from the Municipal Funds Four lorries were obtained from the Food Supplies Department on loan and two from the Ferro Alloy Factory A Fuel Committee with the marginally* noted personnel was formed with the approval of the Municipal Council to consider the measur and to suggest ways an means for the improvement in the working arrangement in regard

Messrs
1 The President, City Municipal Council,(Chairman)
2 The Deputy Commissioner, Mysore District
3 The District Forest Officer, Mysore
4 The Vice-President, City Municipal Council
5 E P Nanjappa
6 T Venkataramaniah
7 A.Krishnamurthy Rao
8 M N Jois, B A ,
9 P.Sitharamiah, B.A., B.L.

to fuel supply in the city

The lorries obtained were given to the four principal contractors, who took up the agency and agreed to abide by the conditions laid down, ∅ on payment of a hire of Rs 10/- per day per trip, the working expenses, being of course met by them To begin with ten Fair Price Depots were opened in all the Mohallas of the City and this was subsequently increased to 16 to facilitate the easy supply of fuel in all parts of the City A security of Rs 500/- was taken from each contractor and agreements on stamped paper were got executed from them binding them to abide by the stipulated conditions As a result of this, the fuel was stocked in sufficient quantities in all the Depots and sold to the public at the rate of four maunds per rupee in portable billets Arrangements were also made to supply the split fuel on payment of an extra fee of two annas per rupee worth of fuel This afforded a great relief to the citizens and the supply of fuel was obtained without any difficulty The situation was thus brought under control The subordinate staff of the Health Department have been instructed to make a systematic inspection of the Depots and submit daily reports as to the proper working thereof and the availability of sufficient stock there Daily reports along with the stock accounts in respect of each Depot were obtained and necessary instructions imparted to the fuel agents to rectify the omissions noticed Several other private Depots also sprung up and fuel carts came in large numbers and sold at less cost As the supervision and checking of accounts connected with the large number of Depots, were entrusted to the Municipal employees, they were not satisfactorily carried on, and on the other hand it was found to be highly detrimental to their legitimate duties In order to avoid complaints and effectively supervise the working of all the Depots, the appointment of two Fuel Inspectors on the same scale of

pay as in Bangalore has been proposed to Government, the cost thereof being met by Government and orders thereon are awaited

So also the supply of charcoal became another - problem requiring to be solved There was much difficulty in obtaining the charcoal and the price went up, above Rs 4/- per bag Arrangements were made to obtain charcoal from the Ferro Alloy Factory and supply them to the citizens at the Fair Price Depots at Rs 2-2-6 per bag A security of Rs 100 was taken from each Depot Agent and agreement was got executed, to abide by the stipulated conditions A number of - private Depots also sprung up so much so the supply of - charcoal in the city was satisfactory

The above arrangements had tremendous effect on private fuel and charcoal depots and the owners thereof were also obliged to sell at the same rates

X In connection with the demise of the following great persons, during the year, the Municipal Council passed at their meetings, resolutions expressing their deep regret and sense of sorrow at the sad demise of those persons and offered their heartfelt condolences to the members of the bereaved family -

(1) Rajakaryapravina N S Subba Rao, Retired Vice-Chancellor of the Mysore University

(2) Rajasevaprasakta Rao Bahadur Mr M C Ranga Iyengar, a leading Advocate and Ex Municipal Councillor

(3) Mr K Ramaswamy, B A ,B L , Ex-Municipal Advocate

(8) ~~(4)~~ At the said demise of His Highness Sir Sri Krishna Varma, G C J E , Maharaja of Cochin on the 13th October, 43, the Council while placing on record its sense of deep sorrow offered its respectful condolences to the rembers of the Royal Family of Cochin

(9) ~~(5)~~ At the sudden and untimely demise of Sjt R S Pandit, condolences were tendered to Srimati Vijaya Lakshmi Pandit and her daughters in their bereavement

(4) ~~(6)~~ Sjt Settappa Siddappa, Merchant and Ex Municipal Councillor, Mysore City

(10) At the commencement of the Ordinary General Meeting on the 26th February 1944, the Council passed the following resolution of condolence

(a) expressing its deep sense of sorrow at the sad demise of Srimati Kasturi Bai who was the living symbol of Indian Womenhood and a devoted life partner of Mahatma Gandhi, whom she loved with surpassing courage, faith and devotion, whose death created an irrepairable loss to the national cause of India and to the ~~selfish~~ Selfless service of humanity

(b) offering its heartfelt condolences to Gandhji on this heavy bereavement and praying the Almighty to grant him sufficient strength and courage to bear this terrible calamity

(c) As a mark of respect to the revered memory of the departed soul, the meeting was adjourned with the conclusion that the above resolution of the Council be duly communicated to Mahatmaji

5 The venerable patriot Sir C Vijayaraghavachar of Salem Ex-President of Indian National Congress

11 The Council passed its deep sense of sorrow at the disastrous and unprecedented calamity on account of the explosion and fire that occurred in Bombay City and extended its heartfelt sympathy to all the afflicted brothern

(6) 10 Sudden demise of Nawab Bahadur Yarjung, President, All-India States Muslim League

(7) 12 Acharya Prafulla Chandra Ray, a Scientist of International reputation, creator of an Indian School of Chemistry, founder of a greater Chemical Industry in India and above all a great patriot and philanthropist As a mark of respect, the meeting was suspended for five minutes

XI The A R P Organisation of which the President was the Controller was wound up during the year with effect from 1st January 1944

PART II CONSTITUTION AND WORKING OF THE MUNICIPALITY

2 Municipal Boundary and Area -

The question of including certain portions of Kumbara Koppal, Thonachikoppal and Vaddarapalya within the City Municipal limits was in correspondence A final notification was issued by Government in their Order No L 7160/M1 95-42-13 dated the 17th January 1944 directing that the City limits be extended by the inclusion of the abovementioned area, with effect from the 15th January 1944 the boundaries of which are as defined in the enclosed copy of the notification vide Appendix C The question of demarcating the boundaries of the extended area in consultation with the Revenue Department and taking its possession by the Municipality is yet in correspondence The Deputy Commissioner, Mysore District has been requested to arrange for the possession being handed over to the Municipality The Municipal Engineer and the Revenue Officer have been instructed to take early action to fix the boundaries as per Government Notification and take possession in conjunction with the Revenue Department Necessary action will be taken to provide all the amenities of the City to the extended area after the same is actually taken over by the Municipality Thus the total area of the City practically remained the same as in the previous year viz , 12 75 sq miles

3 Constitution of the Municipal Council As the term of the previous Municipal Council expired on the 3rd January 1944, it was reconstituted during the year The strength of the Municipal Council continued to be 31 of which 24 members were elected by the rate-payers and 7 including the President were nominated by Govt Out of the previous Municipal Council, the following Municipal Councillors were under detention and their places were not filled in as the Government held that they had not incurred any disqualification as per Government Order No L 8619/M1 155-42-21 dated 26-2-1943

(1) Mr.T.Mariappa (2) Mr P Sitharamiah (3) Mr B.Narayanaswamy (4) Mr E.P.Nanjappa (5) Mr A.Krishnamurthy Rao (6)Mr A N Suryanarayana Rao (7) Mr.Agaram Rangiah

The Mysore Govt. cancelled all the general election held thereafter on 1st 8-11 Nov 1943 and elected members and the members nominated by Govt in their Notification No L.6025/M1 67-42-6 dated 13th December, 1943, was reconstituted from the 3rd January 1944.

The personnel of the previous Municipal Council as also of the reconstituted Council stood as follows -

Members of the previous Municipal Council

1. FORT MOHALLA	1 Mr A Krishnamurthi Rao

(28) G Ahamed Khan, Esq ,
(29) T S Ali Khan, Esq ,
(30) Mohamed Sait, Esq ,
(31) M S Nanjappa, Esq ,

Two casual vacancies in the personnel of the previous Municipal Council, occurred in the month of October 1943, on account of the resignation tendered for the membership by Messrs M C Mallappa and T S Rajagopala Iyengar, and their places remained unfilled in view of the reconstitution of the Municipal Council from 3-1-1944, as per the General Election held on 8-11-1943

There was no change in the membership of the reconstituted Council - which remained the same as it was, when reconstituted

Mr B S Raghavendra Rao, continued to be the President of the City Municipal Council till 1st November 1943 when on his appointment as Director of Civil Supplies in Government Notification No 1376/CB 78-43-1 dated 27th October, 1943 I succeeded him and remained in charge of the President till the close of the year

Under Sections 27(2) of the Mysore City Municipalities Act, a Special General Meeting of the Municipal Council, was held on the 23rd December 1943, at the request of the - Councillors to consider the following resolution -

"This Council while reiterating the resolution Nos 527 dated 7-5-1941 and 122 dated 3-9-1941 of this Council, requests the Government of His Highness the Maharaja of Mysore to kindly consider the question of granting the right and privilege of electing its own President as contemplated under Section 23(2) (a) of Act VII of 1933 on the eve of the reconstitution of the Municipal Council during January 1944, and to kindly pass orders granting the privilege of electing a non-official President for this premier Municipality as it is long overdue " lengthy Consideration

After ~~much debate on the debate subject,~~ the resolution was put to vote and carried and the same was submitted to Government But this resolution of the Municipal Council was not accepted by Government as intimated by the Secretary to Government, Law Department, in his letter No L 8606/41

dated 16-2-1944
The Council takes this opportunity of requesting the Government to kindly review their decision and reconsider the question of conferring the right of electing their own President

Mr Mohamed Khalilulla, M A ,LL B , was the Vice-President till 3rd January 1944, and thereafter he ceased to hold the office consequent on the reconstitution of the Municipal Council After the reconstitution, the Municipal Council elected Mr B Narayanaswamy, B A ,B L , who was the only candidate for the office of the Vice-President His election was approved by Government in their notification No L 8042-M1 42-43 dated 5-2-1944, and he assumed charge of the office of the Vice-President on the 6th February 1944 and continued as such till the close of the year During the intervening period from 3rd January 1944 to 6th February 1944, the Revenue Officer was placed in addition charge of the Hackney Carriage and Water Revenue Sections and the Health Officer in charge of the Sewage Farm

Under Section 26(1) of the Mysore City Municipalities Act 1933, the following powers and duties were assigned to the Vice-President, as usual -

I Powers of supervision over

(a) Hackney Carriage Section
(b) Water Revenue Section
(c) Sewage Farm

II Signing or countersigning Establishment Bills and Bills relating to recurring charges

III Signing or countersigning bills passed by the Executive Committees or the Municipal Council and deposit refund bills, the payment of which has been ordered by the President,

IV Review of progress secured in regard to notes of inspections, requests etc , by Municipal Councillors, a copy of the review being sent to the President by the 20th of every month

Whenever the President was on leave, the Vice-President was placed in charge of the President's duties -

In order that there may not be any misconception,

as regards the precise nature of the duties and powers that should be deputed by the President, it is very necessary to issue definite instructions in accordance with the general or special orders as contemplated under Section 26(1) of the City Municipalities Act

Mr S.Chinnaswamy Setty, B A ,LL B , who was appointed as Municipal Advocate as per G O No L 2890-1/M1 11-42-35 dated the 10th September 1942, during the period of detention of Mr M Shankariah, continued as such till 18th October 1943, on which date Mr M Shankariah resumed charge after his release from detention He continued to be the Municipal Advocate, during the remaining period of the year

The term of the Municipal Advocate being co-extensive with that of the Municipal Council, a re-election was made after the reconstitution from 3-1-44 and Mr M Shankariah who was the only candidate was selected for the place His appointment was approved by Government in their Order No L 8092-3/ M1 11-43-65 dated 7-2-1944, his continuance in the intervening period from 3-1-1944 to 7-2-1944 being also sanctioned

Mr B R Manickam, B E , was the Municipal Engineer throughout the year under report

Mr T Chendrasekhariah, B A ,M B B S ,M P H , continued to be the Health Officer till 11th May, 1944 when he proceeded on three months' privilege leave, sanctioned to him Government Notification No 3956/C B 172-43-1 dated the 14th April, 1944 and thereafter Mr M Ramachandra Rao,B A ,M B B S , C P H , posted in his place assumed charge and continued as such till the close of the year

Mr H C Jambukesvariah, B A , was the Revenue Officer except for a short period of nearly two and half months from 21st October 1943 to 10th January 1944 when he was on other duty as Assistant Ration Census Officer, Mysore City, and the Octroi Superintendent Mr S Siddappa, was placed

was placed in additional charge, this arrangement being approved by Government in their order No L 10276-7/M1 11-43-98 dated 31st March 1944

With a view to the expeditious disposal of the license applications for house building, and to assist the Engineer the post of a Licensing Officer of the grade of a Sub-Engineer was sanctioned in Government Order No L 2992-96/M1 11-41-16 dated 11-10-1941 Mr B Krishna Iyengar was the Licensing Officer till 3rd February 1944, and on his transfer to the Public Works Department, no substitute was posted in his place with the result that it hampered the licensing work The Chief Engineer for Roads and Buildings intimated in his letter No 24747 dated the 9th May 1944 that in view of the recent Government Order re-organising the Department there was no class of Sub Engineer and that if so required, a senior graduate overseer, would be posted and he approved of the appointment of Mr R Srinivasa Rao, Graduate Surveyor, as Acting Overseer, who was placed in charge of the Licensing work with effect from 1st July, 44 The conveyance allowance of Rs 32/- attached to ~~him for the period he remains in charge~~ the post has been recommended to be granted to him for the period he remains in charge of this work

ESTABLISHMENT

The following establishments and allowances were sanctioned during the year under report

1 G O No L 124-6/M1 11-42-100 dated 5-7-1943, sanctioning the appointment of an additional compounder to the Krishnamurthypuram Dispensary on a pay of Rs 20-3/5-30 per mensem

2 G O No L 260-1/M1 11-42-104 dated 7-7-1943, sanctioning a duty allowance of Rs 10/- to the Town Hall Clerk and ordering its payment from 1-7-1942 to 1-10-1943 to the present clerk

3 G O No L 1417-8/M1 11-43-2 dated 3-8-1943, sanctioning the resolution of the Municipal Council approving the appointment of a Gardner cum watchman on a pay of Rs 10/- per mensem during 43-44 for collecting daily fee departmentally at the Nazarabad Cart stand

4 G O No 143[illegible]-5/M1 374-41-4 dated 4-8-1943, sanctioning the appointment of a nurse for Princess Cheluvajammanni Dispensary on a pay of Rs 25/- p m with ration and uniform allowance of Rs 10/- and Rs 2-8-0 respectively

the cost being met by the Municipal Council, Mysore

5 G O No 1550/M1 11-43-4 dated 5-8-1943, sanctioning the appointment of three additional Surveyors, for one year to attend to the Municipal work

6 G O No L 1717-8/M1 11-43-3 dated 10-8-1943, sanctioning the payment of an allowance of Rs 5/- per mensem during the current year to the Steno-typist for recording discussions at meeting and for arranging their early circulation

7 G O No L 1694-5/M1 11-42-110 dated 10-8-1943, sanctioning the continuance of the several temporary establishments referred to therein during the year

8 G O No F1 648-49/GE 12-42-114 dated 13-8-1943, sanctioning the continuance of an additional Accounts clerk attached to the Local Audit Staff on a permanent basis

9 G O No L 2594-7/L B 15-42-34 dated 27-8-1943, sanctioning the revision of the pay of the Vaccinators in the City Municipality to the grade of Rs 20-1/2-25-1-30

10 G O No L 9032-3/M1 11-43-81 dated 21-2-1944 sanctioning the marginally* noted temporary establishments for a period of seven months from 1-12-1943 in connection with the quadrannual General Revision of Assessment in the City to come into force from 1944-45 as per Council's Resolution No 327 dated 27-11-43

One Rev Inspector on
Rs 40+5CA p m
Four clerks on Rs 25/-
each with the usual
D A

12 During ~~my~~ the inspection of the Records Section, ~~just after taking charge~~ by the President in November, 1943, I noticed ~~it~~ to be in an unsatisfactory ~~deplorable~~ condition in as much as there was no proper - arrangement of records in the racks which were not provided with lists of contents and no label affixed to the rack indicating in bold letters, the rack number and the Department to which the papers lodged therein appertained The Record staff had been changed in connection with the Food Scheme and a Telephone Attender was in charge The prescribed registers had not been maintained and the records were kept in a pellmell condition without being sorted and arranged and duly indexed With a view to improve the state of affairs and to clear the arrears of work an additional hand on Rs 30/- in grade Rs 25-1-40 was got - sanctioned in Government Order No L 70913/M1 11-43-45 dated the 15th January 1944 on a permanent basis, with the approval of the Council, as the Record staff which consisted of only one Record-keeper and a Dafterband could not alone attend to this heavy work in addition to the normal routine work which

was also on the increase The work turned out by the Record Keeper staff is recorded in a diary maintained therefor and checked daily A detailed inspection of the records was made by me on the 16th May 1944, and some improvement in the working of the records was noticed The detailed notes of inspection were sent to the Section with instructions that the ommissions and defects pointed out should be attended to and action is being taken to rectify them and bring the work up-to-date As a result of these measures 906 dafters were resorted The number of disposed of files, received into the Record Room during the year was as noted in the margin*

L Dis 1279

13 G O No L 5065-6/M1 11-43-31 dated 16-11-1943 approving of the appointment of a scavenger on Rs 12/- per mensem and a sweeper on Rs 10/- p m and empowering the Municipal Council to appoint such servants in respect of each of the public baths which are under construction when they are completed subject to the provision made in the Budget

14 Formerly, the Water Revenue Section consisted of two clerks in grade Rs 25-1-40 and four clerks in grade Rs 20-1-25 and there was no Head Clerk for the section The existence of the grade of Rs-20-1-25 was a great hindrance to the free-interchange of officials and the recruits had to be put into the last grade which did not afford incentive for them to readily take up the appointment In view of the increase in the work the need for the appointment of a Head Clerk for this section was also keenly felt In order to remove the existing defects and improve the efficiency of the section, action was taken to revise the scales of pay in concurrence with the opinion of the Municipal Council which met with the approval of Government in their Order No L 9968-70/M1 11-43-94 dated 20-3-1944 The allocation of the revised grades of the section after the above sanction stood as follows -

1 Head Clerk in grade of Rs 40-2-50.
5 clerks in grade Rs 25-1-40 and
1 temporary clerk in grade Rs 25-1-40

15 G O No L 7440-2/M1 11-43-53 dated 21-1-1944 sanctioning the maximum pay of Rs 25/- in grade Rs 20-1-25 to Avenue Water Lorry Driver, the Trust Board and Municipality meeting the increased expenditure in the usual proportion of 2 1

16 Council Resolution No 621 dated 6-3-1944 by means of circulation sanctioning the appointment of two clerks one on Rs 30/- per mensem and another on Rs 25/- per mensem in the grade of Rs 25-1-40 for a period of 6 months to attend to the maintenance of the prescribed Registers and Accounts relating to the Provident Fund Scheme for the sweepers etc , with effect from 1-4-1944 which was approved by G O M in their Order No L 10414/5/M1 11-43-100

17 While reviewing the work of the arrears of work every month in respect of all the Sections of the Municipality, it was brought to light, that in the Health Section which - according to the Business Manual had to maintain its own Records Section, the records were all simply heaped up without any sort of arrangement and proper custody of records as required by the Rules ever since the inception of the Department This state of affairs was highly regrettable With a view to the sorting of records and arrangement thereof under the Rules, a note was placed before the Municipal Council to sanction the necessary staff

The Council in their resolution No 612 dated 6th March 1944, sanctioned the post of a clerk on Rs 25/- in grade Rs 25-1-40, for a period of six months for the purpose, with the observation that permanent arrangements may be recommended at the Budget time for approval The temporary hand has been entertained and the work is progressing

18 G O No L 9906-8/M1 11-43-90 dated 22-3-1944, sanctioning the entertainment of 3 sweepers on a pay of Rs 10/- each p m for work in the New Santhepet, area Model House block in Ramanuja Road and Kamatageri in Nazarabad

19 G O.No L.10137-9/M1 11-43-96 dated 29-3-1944, sanctioning the appointment of 2 additional maistries under the

circumstances as stated therein

20 G O No 11148-9/M1 11-43-104 dated 5-5-1944, sanctioning an allowance of Rs 5/- to Mr M Narayana Iyengar, Senior clerk, who is entrusted with the important and heavy duty of writing cheques

21 G O No L 11492-4/M1 11-43-108 dated 17-5-1944, - fixing the pay of S Satyanarayana Rao, Clerk, in grade Rs 25-1-40 at Rs 30/- per mensem, the payment of an allowance of Rs 5/- for recording the discussions at meeting being discontinued

22 G O No L 12623-4/M1 11-43-118 dated 21-6-1944, sanctioning the enhancement of pay of the peon of the Hackney Carriage Section from Rs 10/- to Rs 12/- p m

The appointments to the clerical and executive posts of the establishment are governed by the Rules of recruitment, the City Municipality being constituted as a unit office for purposes of recruitment The vacancies arising on the establishment of the City Improvement Trust Board are also taken to this unit In connection with the scheme relating to food operation and the introduction of the Food Rationing, a number of hands both from the executive and the ministerial ranks of the Municipality were taken, and in consequence a number of vacancies arose which had to be filled up after advertisement in the Gazette and with reference to the C R B List There was considerable increase in the volume of work, relating to the filling up of vacancies, in carrying on correspondence with the Public Service Commissioner and in maintaining the registers and statistics relating thereto

The number of vacancies that had to be dealt with during the year in respect of the City Municipal Office unit, is noted below -

		No.of vacancies
(1)	Executive Posts Class I	14
(2)	do Class II	38
(3)	Advertisable Ministerial vacancies-Class II	2
(4)	Ministerial Posts-Class I	14
(5)	do Class II	44

It is found by experience, that candidates will not be readily forthcoming in respect of executive appointments with the result, that the vacancies had to be advertised a number of times, and seriatum arrangement could not also be made owing to paucity of suitable local candidates This has resulted in considerable dislocation of work Especially for the Octroi Lanegar's post on Rs 15/- it has become difficult to find the candidates The grades of the Octroi Lanegars and the Bill Collectors require to be - suitably revised so as to attract better type of hands As in the case of the Octroi Lanegars which are made interchangeable with the Bill Collectors, it is desirable that the posts of the Cattle Pound Mutsaddies also on a pay of Rs 15/- p m should be made interchangeable with a view to promote the deserving experienced hands to the post of a Bill Collector or Octroi Manegar as otherwise they have absolutely no chances of promotion The proposals on this behalf are being worked up

ADMINISTRATION REPORT

The need for the strengthening of the establishment of the several sections, including the Head Office is - greatly felt, in view of the considerable increase in the volume of work in all directions and especially in the Council Section of the Head Office, the work has become - particularly heavy The total number of subjects dealt with during the past five years is noted in the margin* It will thus be seen that the work in the section has considerably increased A statement showing an abstract of Receipts and Expenditure for the period from 1925-26 to end of 1943-44 along with a statement of the Establishment as it stood in 1926 and as it stands now, is enclosed, from which it will be seen that while the establishment in all the Sections

No.of subjects.
658
688

remained almost stationery with the exception of a few changes, the receipts and expenditure of the Municipality have increased nearly three-fold and there is abundant increase in the correspondence with the result that it is becoming increasingly difficult to maintain a high standard of efficiency in the discharge of business in the Municipal Office In order to make a comprehensive review of the requirements of the several sections in regard to the additional Establishment asked for, a re-organisation Sub-Committee was constituted by the Municipal Council in their Resolution No 129 dated 5-9-1941 and the Committee is yet functioning During the year, the Committee took an insight into the working of the several sections, viz , Head Office, Health Section, Engineering Section and Revenue Section and Records Section respectively Their proposals in regard to the Health Section, Engineering Section and the Revenue Section including Octroi Section are yet awaited As an urgent measure, the revision of the Establishment of the Head Office was taken in the first instance and proposals were made in August 1942 for strengthening the Establishment and providing for the post of a Personal Assistant to the President with a view to relieve him of the office routine, work as he was burdened with the executive work and several other functions besides being the Chairman of the City Improvement Trust Board As the proposals involved a heavy cost of Rs 4,418/-, it was reduced to Ps 2,436/- by proposing the appointment of a Deputy Amildar in place of an Amildar as originally proposed The proposals having gone up to Government, the Law Secretary to Governrent in his letter No L 8099/M1 11-43-67 dated 7-2-1944 stated that in view of the Deputy Amildar being soon changed, he would serve no purpose and that suitable fresh proposals may be sent up A proposal was therefore placed before the Council for the appointment of an Amildar and latterly for the post of an Assistant Commissioner, who would serve as a Land Acquisition Officer for the Trust Board and Personal Assistant to the President

half the cost being met by the Trust Board The Council referred the question to the Re-organization Committee who after deliberations have just submitted the proposals in this behalf It will be placed before the Municipal Council for further action

Secondly, the Water Revenue Section was also revised by providing the grades of Rs 25-1-40 as against the existing four grades of Rs 20-1-25 and the post of a Head Clerk in grade Rs 40-2-50

The improved system of office procedure with regard to the registration of references which was introduced into this Municipality as per G O No L 46-5/M1-11-41-7 dated 15-7-1942 has also been in force Some minor defects in the working of this system were noticed during my inspection of several sections Necessary instructions were issued to rectify the defects and the system is now working satisfactorily The monthly abstracts of arrears in respect of all items of work dealt with in all the sections including the Head Office were obtained every month and reviewed, copies of the reviews containing instructions for the expeditious disposal of the business and other minor defects being sent to each section for strict guidance This has terded to the improvement in the working of the sections to a considerable extent

The sections were also inspected in detail and the notes of inspections sent to the Sectional Officers with instructions to take action for rectifying the defects and omissions noticed

Meetings and Attendance - The enclosed statement Appendix No I furnishes the details as to the constitution of the Municipality, the number of meetings held by the Council and the average attendance at each meeting etc It will be seen therefrom that the Municipality was constituted in the year 1888 The population of the City was 1,50,363 as per Census of 1941 with 22178 rate-payers The Municipal

Council held in all 29 meetings during the year of which 12 Ø were Ordinary Meetings, four adjourned and 13 Special Meetings The main items of business for consideration at the Special Meetings were as follows -

(1) Amendment of the Voters Lists for the General Municipal Elections

(2) Requesting Government to sell Foodstuffs such as Rice, Ragi, Jola to the public at the purchased price

(3) Ascertaining the results of the General Municipal - Election held on 8th November 1943

(4) To consider the introduction of Rationing Scheme into Mysore City and suggest means and ways by which the Municipal Council could render service to the citizens

(5) Requesting Government to kindly consider the question of granting the rights and privilegex of electing its own President

(6) Re-constitution of the Executive and the Consultative Committees

(7) Election of the Vice-President

(8) Election of the Municipal Advocate

(9) Consideration of the revised Budget Estimates of 1943-44

(10) To consider the Draft Budget Estimates of the City Municipal Council for 43-44

(11) To consider the measures for the improvement of water-supply in Mysore City

(12) To consider the arrangements made for the supply of fuel in the Mysore City

(13) Special Meeting to consider the measures for improvement of water-supply in the Mysore City in the light of the proposals made in this behalf in the previous Special Meeting

During the year under report, 61 resolutions in all were tabled by several Municipal Councillors of which 12 were withdrawn, 8 were dropped on account of the absence of the movers and 38 resolutions were passed Three resolutions were referred to the Executive Committee The progress as regards the action taken on the resolutions passed by the Municipal Council are being watched through ~~by the Municipal Council are being watched through~~ a Special Register, the action taken thereon being reviewed every month From the Register, it is seen that action has been taken in respect of all the resolutions passed and

final decisions were received in respect of 17 resolutions Some of the resolutions related to the corstruction of Public Baths, Latrines, Children's play grounds, Market improvement, measures relating to the introduction of rationing scheme into the City, improvement of water-supply and fuel supply etc The question of restricting the use of milk in Hotels, Restaurants and other places in connection with the scheme for supply of pure milk to the city was also one of the subject matter of the resolution

The Municipal Councillors raised in all twenty interpellations and answers to all the points mentioned therein, were furnished The mover in respect of interpellation Nos 648 and 650 was absent

5 Elections - As the term of the previous Municipal Council was due to ~~the~~ expire on 3rd January 1944, - General Election for its reconstitution was held on the 8th November 1943 after the usual formalities being observed regarding the preparation of the Electoral Rolls and the conduct of elections The Municipal Council held a Special Meeting on 8-9-1943 to consider the cases of the voters who had the franchise of election in more than one Mohalla, and the amendment of the Voters' list in the light of the - objections received and other questions relating to the voters list Satisfactory arrangements were made for the polling of votes, and the polling work was carried on - smoothly and there was no complaint against the election

Government in their Order No L 3602-3/M1 11-43-11, dated 23-9-1943 sanctioned an extra expenditure of Rs 367/- towards the grant of allowances to officials who attended to the work relating to elections

The appended statement No II shows the results of Election held The results of the Election were announced at a Special Meeting of the Municipal Council held on 9th November 1943 There was no election in respect of Devaraj and Nazarabad Mohallas as the number of candidates was equal

to the number to be elected in respect of Devaraja Mohalla and as regards Nazarabad Mohalla, one of the two candidates withdrew his candidature As regards the other Mohallas, the number of candidates that stood for election and the number to be elected were as noted in the margin*

	No to be elected	No stood for election
Fort Mohalla	1	2
Chamaraja Mohalla	4	5
Mandy Mohalla	5	8
K R Mohalla	4	5
Lashkar	5	10

Out of the candidates that stood for election, Messrs T Mariappa and Agaram Rangiah had sent in applications for their candidature while under detention Out of 13246 voters in respect of all the Mohallas, 4329 took part in the election After sanction of the reconstitution by Government the Municipal Council elected Mr B Narayanswamy, B A ,B L , as the Vice-President at a Special Meeting held on the 20th January 1944

6 Houses - The enclosed appendix No III furnishes the number of terraced and other houses in the City during the year under report

The number of terraced houses was 2673 as against 2652 in the previous year There were 22943 tiled houses and 440 thatched - houses as against 22918 and 448 respectively in the previous year The total number of houses in the city was 26056 as against 26018 last year There has not been any perceptible increase in the number of terraced and tiled houses for the reason that house building materials were not readily available on account of the war condition 1200 sites were lying vacant as against 1217 in the previous year The Trust Board for the City Improvement, has been attending to the question as regards the removal of the thatched houses and the construction of tiled houses in lieu thereof and to enforce the owners of the sites to build houses thereon Much progress could not be attained in this respect due to want of materials on account of war conditions In order to remove congestion and effect improvements, the Trust Board, has been taking action to acquire sites and houses wherever found necessary - - -

necessary The Trust Board will be requested to hasten the action in this behalf as the existence of a large number of vacant sites is a nuisance and the sites are used as public latrines, and for dumping rubbish

7 Working of the Committees -

(i) Appendix No IV shows the details of the working and other Committees, the names of the Committee Members, the number of meetings held and the average attendance of members thereof In this Municipality the Committees are formed twice a year once for the first half of the year and again for the second half of the year, as prescribed in the Municipal Byelaws

The number of meetings held by these Committees during the year is noted below -

	No. of meetings held
(1) Managing Committee	13
(2) Works Committee	22
(3) Health Committee	13
(4) Town Hall Committee	13
(5) Audit~ Committee	6
(6) Legal Committee	2

Besides the Executive and Consultative Committees the following Sub-Committees were also created from time to time to go into the questions referred to them and propose suitable measures

The Sub-Committees that existed in the previous year were continued during the year up to the date of the re-constitution of the Municipal Council, viz , 3-1-1944 After the reconstitution, the Sub-Committees also were reconstituted The marginally* noted sub-committees were newly formed during the year

* (1) Sub Committee to consider the proposal regarding the supply of pure milk in the city
(2) Provident Fund Committee
(3) Ways and Means Committee to augment the resources of the Municipality
(4) Sub-Committee to consider the arrangements for supply of fuel in the city
(5) Poor Boys Feeding Committee
(6) General Poor Feeding Committee

The following is the list of Sub-Committees that functioned during the year The details as regards the names of the members constituting the several sub-Committees ard the number of meetings held by them, are also noted against each -

Name of the Committee	Names of the Members Messrs	No.of meetings held
(1) Sub-Committee to scrutinise the Octroi Byelaws	1 P Sitharamiah, B A ,B L , 2 M S Nanjappa 3 L R C Basappa 4 Gulam Ahamed Khan 5 A Krishnamurthy Rao 6 Revenue Officer(Convenor)	1

Besides there are other Mohalla Wardens who would assist the Convenors of their respective Mohallas and the total number of such wardens is 45

(10) The marginally* noted two Municipal Councillors were selected to serve as Trustees on the Mysore City Improvement Trust Board

(1) Messrs E P Nanjappa
(2) P Sitharamiah, B A ,B L ,

(11) The following two members were elected to serve on the Mysore City Excise Licensing Board

(1) Messrs U L Ramachandra Rao
(2) A N Suryanarayana Rao

The appointment of a Committee to examine the several questions connected with the water-supply in Mysore City has been pending and a reference has been made to Government seeking approval as regards the Huzur Secretary to H H The Maharaja being made a member

8 Bylaws, Rules and Regulations

The following Bye-laws and rules or amendments thereto, were sanctioned by Government during the year under report -

The following Bye-laws and Rules or amendments thereto, were sanctioned by Government during the year under report

(1) G O No L 1106/M1 112-42-59 dated 27th July 1943, prescribing a rule for the taking out of a license by the Farriers in Mysore City

(2) G O No L 1108-9/M1 112-42-60 dated 27-7-1943, approving of the Bye-laws for the licensing of the Farriers in Mysore City

(3) G O No L 1713-5/M1 119-43-2 dated 10-8-1943 sanctioning the resolution of the Municipal Council in amending the rule to provide for a reduced fee of annas six for drivers of bullock carts

(4) G O No L 6552-4/M1 111-41-150 dated 31-12-1943, sanctioning the Rules for instituting and regulating the Provident Fund Scheme for the benefit of the sweepers and other non-pensionable employees of the Mysore City Municipality

(5) G O No L 7720-1/M1 11-42-123 dated 27-1-1944, sanctioning the rules for the payment of gratuity in respect of sweepers etc , who are not entitled to the benefit of pension or provident fund

(6) G O No 8100-2/M1 100-43-21 dated 7-2-1944 sanctioning the amendments to the Byelaws regulating dangerous and offensive trades so as to include the Bamboo and timber trade therein

(7) G O No L 9046/M1 100-43-26 dated 29-2-1944 approving of the amendment regarding the Byelaws relating to Cattle sheds

With a view to regulate the construction of building fixing the projection of roof, eves, weather boards, shop boards and the like projections over the streets in the city, draft byelaws have been framed and submitted to Government for approval in this office letter No 15 87-362/ dated 11-9-1944

Certain offences under the Municipal Act and Byelaws framed thereunder, are proposed to be compounded A statement showing the composition fee leviable in respect of those offences has been sent up to Government on 2-6-1944 for approval

As the existing rules relating to the water-supply in the City are antiquated and do not conform to the modern requirements, the question of revising the rules, on the same lines as in Bangalore City, has been engaging the attention of the Municipal Council The Legal Committee are at it

Fresh Imposts and Taxes, fees also

No fresh taxes were levied during the year As the quadrannial general revision of assessment has to come into effect from the current year 1944-45, a special establishrent for work connected with it was entertained from December 1943, and action is being taken to get the necessary lists prepared A number of objection petitions against the revision of the house tax, have been received The Municipal Council have appointed a revising authority for the disposal of these Objection petitions

In respect of the licensing of the Farriers, a fee of annas four for each license has been fixed

Regarding the levy of the Education Cess of two annas in the rupee on taxes in respect of buildings and lands from the year 1941-42, as sanctioned in G O No E 1358-71/95-40-2 dated 16-10-41, the Municipal Council have resolved that Government may be requested to waive the levy of the cess as it would act as a burden on the rate-payers and that the Municipal contribution of Rs 25,000/- may be continued to be accepted as before The reference made to Governrrent in this behalf is pending orders

In their meeting held on 12-7-1943, the Municipal Council, discussed over the subject upon the resolution tabled by Mr I R C Basappa, and passed the following resolution -

(1) " Since as already resolved the payment of Rs 25,000 is not enforceable under the Act, it is resolved that Government be requested to refund the payment already made during the year 1941-42 for which year Education Cess has been collected "

(2) "Since in the schedule of the Mysore Elementary Education Act, the levy of Education Cess is restricted to taxes on buildings and lands, taxes on vehicles and animals etc , and professional tax, and in Governrert Order No E 1358-71/Edn 195-40-2 dated 16-10-41, the levy of the tax is restricted only to taxes on buildings and lands and professional tax, as far as taxes on buildings and lands are concerned, fesolved that the cess be limited to 5% only on the rental and not on 9% as levied at present in this Municipality, and that the collection by the Municipal Council be restricted to this

Another resolution was brought in to suspend the collection of the cess pending orders of Government on this behalf

Government in their Order No L 475-88/41 115-42-26 dated 10-7-1943 exempted the Agricultural implements stocked in Agricultural Depots from payment of octroi duty under section 64(d) of the City Municipalities Act

The question of introducing a new type of patta book system by means of printed books to last at least for five years corresponding to land Revenue Patta to indicate proper demand, collection and balance, to avoid all misappropriation, loss of loose receipt - now issued by the Municipality and incorrect demands, as resolved by the Municipal Council in their resolution No 377/1 dated 22-2-41 was pending Mr E P Nanjappa tabled a resolution urging on the necessity, to take early steps to carry on this resolution A detailed note putting forth, the inconvenices for the introduction of the patta system, in addition to the receipts now granted, was placed before the Council and after discussion, the proposal was dropped

10 Assessment and Taxation

The assessment as levied at the General Revision completed during the year 40-41 was in force, with alterations in respect of the revision made from time to time, relating to new construction alterations to existing - buildings etc , and on mutations sanctioned from time to time

As usual cases of mutation are disposed of by the Revenue Officer, after local enquiry, and inspections in each case, his orders in respect of these cases, being subject to appeal to the President

During the year 636 mutations were made by the Revenue Officer as against 529 cases in the previous year Appeals were preferred to the President in 22 cases against

the orders of the Revenue Officer Assessments were confirmed and the appeal rejected in 10 cases, and in the remaining 12 cases, the orders of the Revenue Officer were modified, and the assessment reduced

11 Demand, Collection and Balance

The enclosed statement No V shows the demand, collection and balance of rates and taxes for the year 1943-44 It will be seen therefrom that the total arrears outstanding at the beginning of the year amounted to Rs 60,463/- and that the demand for the year under all heads was Rs 7,37,613, thus making up a total of Rs 7,98,076/- for recovery during the year Out of this amount a sum of Rs 35,045/- was collected towards arrears and a sum of Rs 6,84,978/- was collected towards the current demand, bringing the total collection to Rs 7,20,023/- Remission was allowed in respect of a sum of Rs 3,533/- during the year The balance left uncollected at the close of the year was Rs 74,520/- of which a sum of Rs 21,885/- related to the previous year's arrears, and the balance to the current demand The percentage of total collections under all heads to the total demand was 90 2 as against 91 1 in the previous year The slight fall in percentage is due to fall in collection

Water
under/Revenue and Demand

The figures of demand, collection and balance for the previous five years are appended below for ready reference -

Year	Demand including arrears	Collection	Balance
39-40	8,09,512	6,25,367	1,84,145
40-41	8,08,385	6,81,880	1,26,505
41-42	7,50,126	6,67,719	82,407
42-43	7,41,121	6,80,658	60,463
43-44	7,98,076	7,20,023	74,520

From the above, it will be seen that the demand that had to be collected during the year was more than in the previous year to the extent of Rs 56,955/-, and as compared with D.C.B. of previous years the highest amount was collected during the year under report

Out of the balance of Rs 74,520/- a large sum of Rs 47,650/- related to Water taxes This heavy balance under water-taxes as against Rs 16,337/- in the previous year is ascertained to be due to the fact that timely action in sending the bills to the rate-payers was not taken by the Water Revenue Section in charge of the Vice-President, who has been requested to - expedite action in this behalf and that large sumswere due from Government Departments under correspondence

On the whole, the collection has been appreciably good when compared to the figures of the previous year's arrears

Assessed taxes - The arrears outstanding under this head at the beginning of the year amounted to Rs 60,463/- inclusive of the water revenue and the demand during the year was Rs 353703/- making up a total of Rs 4,14,166/- for recovery

A sum of Rs 3,39,646/- including the remission of Rs 3,533/- was recovered, leaving a balance of Rs 74,520/- at the close of the year

The demand, collection and balance during the last five years is noted below for ready reference -

Year	Demand	Collection	Balance
1938-39	5,21,749	3,12,087	2,09,662
39-40	5,32,774	3,40,521	1,92,253
40-41	5,09,775	3,83,270	1,26,505
41-42	4,57,972	3,75,565	82,407
42-43	4,11,165	3,50,702	60,463
43-44	4,14,166	3,39,646	74,520

D C B statements are obtained every month from the Revenue Officer, with details of actior taken and the same placed before the Council with a detailed review thereon A copy of this review is being sent to the Revenue Officer for strict guidance on the points noticed therein

Out of the balance, a large sum of Rs 47,650/- relates to water tax The balance outstanding represents mostly cases fmled or to be filed, wrong demand and irrecoverable arrears to be written off and arrears due from Government Department under correspondence The Revenue Officer has been request directed to take immediate action to file the suits, and to expedite

execution of other processes for the recovery of the balance

Other Items - The demand under other items of revenue except Octroi, Toll and assessed taxes including the arrears of Rs 602/- outstanding at the beginning of the year was Rs 1,14,060 out of which a sum of Rs 1,13,149/- was collected during the year leaving only a balance of Rs 911/- at the close of the year There was an increase of revenue under this head to the extent of Rs 7,714/- when compared to the demand of the previous year, which was Rs 105744 as against Rs 1,13,458 in the year of report This increase in revenue is attributed to the fact that realisations under shops rents, collection of daily stock fees etc , were more than last year The collection under this head has been satisfactory and the Revenue Officer has been directed to expedite recovery of the outstanding balance of Rs 911/- under this head

12 Appendix No VI shows the particulars of the population and incidence of taxation per head of population

The incidence of taxation per head based on the population according to the census of 1941 and the income of Rs 7,18,462/- during the year works upto Rs 4-12-5 as against Rs 4-5-9 last year The difference being very little, it calls for no remarks

PART II - FINANCIAL POSITION.

13 The enclosed statement No VII furnishes the details as to the opening balance receipt, expenditure and the closing balance of the Municipality for the year 1943-44.

It will be seen therefrom that the year began with an opening balance of Rs 65,448/- and that the receipts and expenditure under all heads during the year (including) public Debts, amounted to Rs 11,32,889/- and Rs 11,21,566/- respectively leaving a closing balance of Rs 76,781/- at the end of the year, of which a sum of Rs 48,632/- was in deposit at the Mysore Bank and the balance of Rs 28,149/- remained in the Mysore District Treasury Though there remained a closing balance, which was more than the statutory balance of Rs 20,000/- prescribed for this Municipality, a large sum of Rs.33,230/- related to items of deposit and there were not sufficient funds to meet the expenditure under certain Budgetted heads with the result that public work bills to a large extent had to be withheld.

The grant of the dearness allowance at the increased rates was in itself a heavy drain on the resources of the Municipality

As the expenditure was disproportionate to the income on account of increase in the cost of materials and labour charges and payment of dearness allowance, it was felt - desirable to review the financial position of the Municipality on the basis of the actual receipt and expenditure and so a revised budget with detailed notes, was prepared and placed before the Municipal Council for their consideration, at the Special Meeting held therefor on the 11th March 1944 It was also suggested to the Municipal Council that fresh revenues of income should be explored such as (1) levy of professional tax, (2) increase in the rent of market stalls, increase in the rate of tax on

buildings and lands on a sliding scale as in Madras Corporation and increasing the flat-rate on house connection, as the Mysore City rate-payers pay only a minimum of Rs 5/- per annum while in other Municipalities, the minimum levy is Rs 12/- per annum

After deliberations and long discussion the Council adopted the revised Budget with certain modifications, which resulted in a deficit of Rs 61,162/-

The Council therefore resolved that a Special Committee consisting of five members, be formed for devising ways and means to improve the finances of the Municipality The Committee has been formed and it met only once during the year

As it was not possible to cut down the expenditure without detriment to the general safety and well-being of the Municipality, the Council resolved that a request be made to Government for the grant of the special subsidy of Rs 80,000/- from General revenues, to meet the unavoidable excess requirements of the year, and to maintain the statutory balance of Rs 20,000/- Government did not sanction the proposal as it was not usual to give grants to Municipalities from State Funds to cover the Budget deficit and the Municipality was asked to be advised to take up the suggestions made, in regard to the improvement of the finance as intimated in Law Secretary's letter No L 11642 dated 18th May 1944 The Committee appointed for the purpose, are at it In consequence, the expenditure under P W Works and other items, could not be met in full

The financial position of the Municipality, cannot on this account be said to be unsatisfactory There has been a steady improvement in the income from year to year under assessed taxes, octroi and market rents and income from other sources, such as, vehicle taxes, and sewage farm revenue etc , which are the most important items of

revenue, as will be seen from the following figures, under income from ordinary sources and ordinary expenditure of the Municipality during the last five years -

Year	Income from ordinary sources	Ordinary expenditure
(1) 39-40	7,89,313	8,82,049
(2) 40-41	8,34,456	7,44,500
(3) 41-42	8,57,221	7,93,396
(4) 42-43	8,87,190	8,78,488
(5) 43-44	9,56,691	8,69,219

Besides there has been a marked improvement in - collection, under the principal heads of revenue as will be seen from the figures given below, for the past five years

Year	Octroi	Mohatarfa	Vehicle Tax	Water Tax
39-40	1,72,994	2,06,547	37,663	1,24,169
40-41	1,85,697	2,20,213	41,579	1,43,821
41-42	1,90,341	2,24,277	41,053	1,41,401
42-43	2,26,147	2,18,822	41,682	1,31,880
43-44	2,78,104	2,15,962	41,072	1,20,080

There has also been a steady increase in the income from other sources also

But for the grant of dearness allowance, the financial position of the Municipality would have continued to be very satisfactory, and there would have been no occasion for the deficit, noticed during the year

The Municipal Council approved of the draft Budget for the year 1944-45 in their meeting of the Budget Session held on the 27th May 1944 according to which the total receipts and expenditure were estimated at Rs 13,02,620/- and Rs 12,97,540/- respectively providing for a closing balance of Rs 24,518 Government have since approved of the Budget with certain modifications curtailing the expenditure under P W.Works and other items

A sum of Rs 29,500/- towards Principal, along with a sum of Rs 24,548/- towards interest was repaid on account of the instalment of the Debenture Loans, of the Municipalit that fell due during the year

PART III - RECEIPTS

A - Municipal Rates and Taxes

14 Octroi - The details of realisation under this head are furnished in the enclosed appendix VIII (a) from which it will be seen that the total collections under Octroi amounted to Rs 2,78,104-3-10 during the year, as against Rs 2,26,147-4-10 resulting in an increase of Rs 51,956-15-0 which is mainly due to heavy import of cloth and piece goods

The following items also contributed to the increase in income -

(1) Cocoanut (fresh and dry)
(2) Metalware
(3) Oil
(4) Kerosine oil
(5) Tobacco
(6) Soap
(7) Coffee
(8) Glassware
(9) Motor accessories
(10) Iron materials

The collection under this head, has been the highest on record this year, as will be seen from a comparison of the figures for the past five years as noted below -

Year	Amount
39-40	1,72,991
40-41	1,85,697
41-42	1,90,300
42-43	2,26,147
43-44	2,78,104

The octroi revenue has been steadily increasing, as a result of the increase in the import of duitable articles on account of the war measures The greater vigilance on the part of the Octroi staff as a safeguard against cases of smuggling and frequent surprise inspections by the superior officers have also played a great part in the improvement of collections

15 Taxes on Buildings and lands.

The particulars of demand, collection and balance under this head are given in appendix V

The D C.B under this head of revenue for the past five years are given below -

Year	Demand	Collection	Balance
39-40	2,59,723	1,67,407	92,316
40-41	2,42,596	1,75,580	67,016
41-42	2,19,983	1,79,137	40,846
42-43	1,96,122	1,55,276	29,826
43-44	2,07,419	1,86,461	20,958

The percentage of collection under arrears worked out to 70 9 and that under current demand to 90% The collection work during the first half of the year was not satisfactory due to the intervention of several activities connected with the Municipal elections and ration census work Stringent instructions were issued to the Revenue Officer in the monthly review on the D C B statement, received from the Revenue Section and suitable disciplianary measures, were taken to pull up the collecting staff As a result of this, satisfactory progress was achieved in this direction during the second half year The collection staff have strained every nerve and spared no pains by putting forth their utmost efforts, to achieve this result The work of the Revenue Officer in this respect deserves appreciation. As an encouragement the Municipal Council sanctioned the grant of a cycle allowance of Rs 3/- p m to the bill - collecotes temporarily for a period of three months This allowance is proposed to be continued during the current year also

Strict instructions have been issued to the Revenue Officer to expedite action for the outstanding balance

B- Realigation under Special Acts

16 Pounds - There are four cattle pounds in the city and they are in charge of the Cattle Pound mutsaddies working under the supervision of the Revenue Officer These

Cattle Pounds were got inspected by the Revenue Officer in detail, and reports of inspection obtained The working of the cattle pounds was reported to be satisfactory during the year

The income from cattle pounds during the year was Rs 1,181/- as against Rs 1,347/- in the previous year and the fall in income under this head is partly due to the abatment of cattle nuisance in the City, and the discontinuance of the cattle catching gang

As a result of the discontinuance of the cattle catching gang the cattle nuisance increased and the cattle were found astray in the streets A few accidents resulting in the loss of life in one case, were reported on this account It was therefore considered desirable to revive the system The Municipal Council sanctioned the entertainment of the cattle catching gang The same has been employed and the stray cattle, are being impounded The stray cattle nuisance has subsided to some extent

17 Public Conveyances - The register of vehicles and animals is being regularly scrutinised to prevent leakage of revenue, by the Vice-President, who has been in charge of the Hackney Carriage Section, and all cases where licenses are not renewed, checked up to see that the vehicles or animals concerned are really not in use The vehicles and animals are examined by the Vice-President a few cases being examined by me, also, and only such of them as are found to be fit for use, are licensed

The total realisations under animals and vehicle tax was Rs 41,071/- as against Rs 41,695/- last year The following conveyances were licensed during the year -

	No
(1) Public Conveyances	2051
(2) Private	521
(3) Cycles	7190

Last year 2050 public conveyances were licensed

On account of the increased cost of metal for providing

discs for yearly and half yearly payment of taxes on vehicles, the Council resolved to amend the Bye-laws, so that the registration of vehicle may be made for one year instead of half-yearly Sanction of Government is solicited to this proposal

The tonga owners began to demand exhorbitant rates of fares so much so that urgent action to check and control the rates was called for The Municipal Council sanctioned the appointment of an Assistant Hackney Carriage Inspector on Rs 25/- plus Rs 5/- C A temporarily for 3 months in the first instance, who was deputed to be at the Railway Station and afford convenience to the travellers who come by train, in securing the tongas at moderate rate of fares This system is found to be working well

A new list of fares has been prepared so as to suit the present day condition, and it is for the consideration of the Municipal Council After its approval it is proposed to get the fare list printed and fixed at all the Tonga and Jutka stands The Municipality is also contemplating to run buses in the city to provide convenience to the public for purposes of transit at cheaper rates

C Revenue derived from Municipal property and powers apart from taxation

The revenue derived during the year was Rs 1,77,961/- as against Rs 1,62,374/- last year, and it consisted mostly of revenue derived from Municipal market, compost, slaughter houses, the Municipal Farm and other miscellaneous items There has been an increase in the income even under this head and it is mainly due to the realisation from Sewage Farm, market rent, and slaughter houses being more this year

Grant and Contributions

18 and 19 A sum of Rs 26,200(26,200) was received by way of grants during the year, as against Rs 12,981 last year

The following are the items relating thereto -

(1) Lumpsum grant sanctioned by Government towards the expenses in connection with the Viceregal Visit	Rs 15,000/-
(2) Amount of contribution received from the City Improvement Trust Board on account of tarring loan instalment	Rs 11,200/-
Total	Rs 26,200/-

20-E. Miscellaneous

The receipts under this head were Rs 19,804/- as against Rs 7,486/- in the previous year The following are the items, from which the income was derived

(1) Recoveries on account of services rendered to private individuals	Rs 2137-11- 0
(2) Lapsed deposit	Rs 4550- 9- 0
(3) Refunds and recoveries	11487-11- 0
(4) Other items -	
(1) Mileage Cess	Rs 350- 8- 0
(2) Instalment on Model Houses	Rs 1276- 0- 0

Public Debt

21. Loans

From the enclosed statement No XX, it will be seen, that the marginally* noted Debenture Loans, aggregating to a total sum of Rs 9,45,000/- were raised by the Municipality A sum of Rs 29,500/- was repaid during the year towards - principal and a sum of Rs 24,548-5-0 was paid towards - interest The total amount of loan repaid up to the end of the year, was Rs 2,12,000/- leaving a balance of Rs 7,63,000 at the close of the year

1) 3½% 1936-51 Debenture Loan	5,00,000/-
2) 3½% 1936-51 Annuity Bonds	4,20,000/-
3) Interest free loan repayable in equal annual instalments of Rs 2,500/- each sanctioned by Government in 41-42 for the purpose of digging wells in the City for making drinking water available to the public in time of emergency should any danger overtake our drinking system	25,000/-
Total	9,45,000/-

Out of the loan of Rs.25,000/- sanctioned for well works a sum of Rs.3,142/- was spent during the year for the purpose, in

addition to the sum of Rs.17,580/- that was spent in the previous year The wells sunk were also fitted up with hand pumps making it easy to draw the water from the wells These wells served a very useful purpose at the time when the - electricity failed consequant on the general shut-down of the current from the Generating Station at Shivansamudram in May 1944 The wells were all got hankanised at this time, and people were advised to make use of the well water by the issue of hand bills

22 Collection - As usual the collection of assessed taxes and water-revenue was in charge of the Revenue Officer under whose supervision the Octroi Department and tolls also continued during the year The Revenue Officer was also in direct charge of the collection of market revenues The Vice-President was in charge of the Water Revenue Section, Hackney Carriage Section and the Municipal Sewage Farm During the absence of the Vice-President, the Revenue Officer, remained in additional charge of these sections also except Sewage Farm, which was in addition, in charge of the Health Officer

The distraint warrants issued for recovery of the arrears of water-taxes, are at present sent to the Revenue Section for execution through the Revenue Inspectors This causes much delay, since there is a Water Revenue Inspector attached to the Water Revenue Section, it is desirable that in the interest of the expeditious collection of water taxes, the Water Revenue Inspector should be empowered to execute the distraint warrants This question is for the consideration of the Municipal Council

The collection work under all items, continued to be satisfactory during the year under report.

The expenditure incurred during the year under report towards collection of assessed tax amounted to Rs 47,011 as against Rs 47,687/- last year

PART IV - EXPENDITURE

23-B. Public Safety

Lighting - Five new lights were installed during the year at the instance of the Municipality, some of the overhead lights and ornamental ones, have been discontinued, as a measure of economy, under instructions from Government in this behalf

There were 1901 Gooseneck lights and 67 ornamental lights in the Mysore City at the end of the year, out of which 16 lights are under disconnection A moiety of two ornamental lights is charged to Government Administration

The charges paid to the Electrical Department during the year amounted to Rs 41,359-3-0 as against Rs 44,043-15-0 in the previous year The reduction in the expenditure is partly due to the general shut-down of the current at Shivansamudram, in May 1944 when there were no street lights for about a fortnight and the lights restored subsequently

Fire protection - Only one case of fire was reported during the year and the cost incurred towards the fire call charges was Rs 25/- during the year as against Rs,75/- last year The question of constructing static tanks to serve both for fire fighting purpose and as balancing tanks for water supply distribution is still under consideration

24 Rewards for destruction of wild animals -

The expenditure incurred towards payment of the rewards for destruction of wild animals during the year was Rs.74-4-0, as against Rs 31 in the previous year

1358 stray dogs were destroyed during the year as against 1895 in the previous year.

Rabits and Dog Destruction.- During the year 416 dogs were licensed In view of the amendment of Byelaws providing for the levy of tax on dogs, fees were levied and a sum of Rs. 172-14-0 was realised on this account

1358 stray dogs were destroyed during the year as against 1895 in the previous year The destruction is being done as usual by the use of strychnine As it is found not possible to procure dog catchers this method is being adopted An electric lethal chamber has been constructed for the purpose, but it is not being used

25 Civil Works carried out by the Public Works Dept

No civil works relating to the Municipality are carried out by the Public Works Department, since the Municipality has maintained its own Engineering Section The works relating to water-supply are however as usual got done through the Vani Vilas Water Works which is under the control of the Department of Public Health The question of transferring this agency and taking up the water works by the Municipality has been under consideration, so that better supervision over the works, and proper distribution of water, may be effectively made

26 Public Works carried out by Civil Department -

The expenditure on public works carried out by the Civil Department during the year amounted to Rs 2,35,758/- as against Rs 2,15,150 in the previous year, resulting in an increase of Rs 20,608/-

The several items of works carried out during the year, and the amount of outlay in respect of each work, are furnished below -

	Items	Outlay Rs
(1)	Market Improvements	2,473/-
(2)	Buildings-Original	7,875/-
(3)	Drains-Original	12,761/-
(4)	Cast Iron Pipes	--
(5)	Kerbing, paving and improvement to foot-paths	6,428/-
(6)	Improvements to Swimming Pond	3,064/-
(7)	Tarring Roads - Original	94/-
(8)	Metalling Roads	35,982/-
(9)	Poor House Construction	--
(10)	Park Improvements	1,748/-
(11)	Laying sewer submains	1,775/-
(12)	Maintenance of metalled roads	16,636/-
(13)	Improvement to Sewage Farm	8,847/-
(14)	Maintenace of gravelled roads by Kalihat Gangs	21,441/-
(15)	Maintenance of tarred roads	23,868/-
(17)	Drain Repairs	7,492/-

(17)	Market repairs	3,986/-
(18)	Maintenance of water lorries and road rollers	5,749
(19)	Building repairs	5,749/-5,246
(20)	Unforseen works	6,747/-
(21)	D3 - Loan works	3,152/-
(22)	D4 - Loan work Tools and Plants	3,317/-
(23)	E2-C	2,393/-
(24)	E 10 Fairs and Festivals	6,774/-
(25)	E 12 Avenues	721/-
(26)	Town Hall	8,605/-
(27)	Model House Funds	41,584/-

The details of the several items of work under each head, and the outlay incurred therefor during the year, are given in the enclosed appendix No 21

27 Tarring of roads -

During the year much progress in original tarring work could not be shown for want of adequate stock of emulsion The quantity supplied during the year was not enough to maintain the existing tarred surfaces in the Mysore City the area being 6,41,260 sq yds, and the length, 38 miles The cost of emulsion also went up steadily from 6 annas per gallon to Rs 1-2-0 per gallon and there were not sufficient funds to take up any original tarring work Hence the original tarring work was done to the extent of Rs 94/- only during the year It has not been possible to increase the length of tarred roads by taking up the original works, when the maintenance work itself was found not possible to carry on

The maintenance of the existing surfaces of the tarred roads, which had deteriorated very badly with plenty of pits of various sizes and depths all over the roads during the rainy season, was attended to during the year, and the expenditure on this account amounted to Rs 23,868/- The mere patch work itself was attended to with great difficulty and no preservation coat could be given to the existing roads The patching work was done by employing tar gangs which consisted of trained coolies, and hand carts either bullocks carts or wheeled barrows under trained maistries The maistries were

trained by giving them lessons regarding the most efficient method of tar patching work The required quantity of chips and dust was collected on all the roads by the contractors who were paid scheduled rates, the patching and repairing being done by the tarring gangs It may be stated here that the tarred roads in the Mysore City are far superior to those wlsewhere even though they may look a little patchy in appearance The surface is smooth enough For want of quary dust it was necessary to use quartz and sand available in Subbarayanakere and other places Even though the colour at the commencement of the patch work is red it turns out into a smooth nice black surface in course of time As this course sand is available free of cost it was used in place of quartz dust for which we have to pay Rs 5-8-0 per C yd

Metal roads - Under the existing circumstances, the only useful work that could be done to the Mysore City was metalling of lanes and bye-lanes in Mysore City which used to be full of slush and unfit for the pedestrians to walk about The field metalling programme of the Bye-lanes and the cross streets, and burnt metalling of the main streets were very rapidly under progress during the year The expenditure on account of the metalling roads was Rs 35,982/- during the year The length of the roads newly field metalled was 29 miles The total length of the metalled roads in the year 1941 was 46 miles only, while in the year 42-43, the length of fresh roads metalled was 21½ miles But during the year a length of 29 miles was field - metalled The total length of metalled roads now existing comes to 96½ miles As in the previous year, the maintenance of the metalled roads such as blindage and repairing work was got done by our own gang workmen at cheaper rates For blindage sand was obtained from big storm water rains running in the city near Kukkarahalli tank, Subbarayanakere and Doddakere tanks Gravel was likewise carted from the potential gravel quarries marked out in and around the city at a less cost and gang carts were engaged for the purpose The gravel quarries

were got by merely taking up the work of levelling up all mounds and ugly projections, so that the forming of the area was also done while quarrying gravel required for roads Sand was obtained to a considerable extent by removing silt from storm water drains

Special repairs to metalled roads either by recoating or dust filling were done by collecting the required quantity of metal by piece workers and getting the same consolidated by the help of the gangs

The total number of Kalihath gangs which were employed during the year for the maintenance of gravelled and metalled roads was 16 as in the previous year These gangs worked - satisfactorily, in putting blindage for the metalled roads, filling scours and forming side and shoulder drains in the streets, removing silt from shoulder and side drains and from culverts and other tidying up of works The expenditure under this head was Rs 21,441/- The maistries of these gangs were given regular training This system has been working very satisfactorily and has resulted in a considerable savings to the Municipality The expenditure on account of the metalled roads during the past five years is noted below -

Year	Amount
1939-40	18,264/-
1940-41	17,506/-
1941-42	24,883/-
1942-43	39,218/-
1943-44	35,982/-

There has been a steady progress in this direction from the year 1941-42 The taking up of this work has been of immense use to the poor people living in interior parts.

Foot-paths - A sum of Rs 6,428/- was spent during the year under report, as against Rs 1,792/- last year, towards curbing, paving and improvements to foot-paths A number of footpath gangs were employed for the purpose The surface of the footpaths had become very ~~high~~ rough on account of the soft earth over the surface having been washed away and ~~xxx~~ the quartz stones sticking above the surface. In order

to make the footpaths passable by the pedestrians, it was necessary to pick the surface, remove the sharp stones, put sandy gravel and roll the surface with sand above This method of treatment has rendered many footpaths smooth and nice For want of masonary shoulder drains the footpaths are not in one level, and at every shoulder the people that cross, have to get down and get up the ramp Particularly, at nights this is very inconvenient and the pedestrians keep to the centre of the road as they feel more, comfortable to walk on the tarred surface or metalled surface instead of the - foot-paths It may be possible to improve these shoulder drains by constructing them out of masonary and putting concrete slabs over them during the current year, in order to secure a uniform flat surface for the pedestrians to walk on A number of foot paths in extensions were over grown with masopatamia thorns and it was one of the most important work of the gangs to remove the thorns and to scrape out unnecessary growth of grass on the portion used by the - pedestrians.

28 Drains - Against the provision of Rs 10,847/- in the Budget a sum of Rs ~~12,761/-~~ 12761/- was spent towards the improvement of existing drains, laying out fresh drains and construction of culverts and road crossings For want of sufficient number of road crossings and proper drainage work the road surfaces are getting very badly scoured even for slight rain If a road surface has to be preserved there should be proper drainage for stormed water and unless this is done not only the road surface deteriorates but also the houses along the roads get damaged and become damp due to want of proper flow of stormed water The drains all over the City were closed in the year 1938 with the object of preventing sullage water to flow and to prevent the stagnation of water in damaged drains with the idea that the underground drainage would serve the purpose It was realised that even in places where the area has been completely sewered

there was still a small quantity of water from the kitchen and bath rooms flowing outside into the drains, further there are several areas which are not sewered It was therefore necessary to open and maintain the original drains in good order Many drains which had been closed, were opened and improved considerably so as to serve as proper drains for storm water even though the sullage and sewage water was taken by the underground drains For improving all the drains in the Mysore City, we require a very huge amount and it is therefore programmed to get many of these improvements done by the Trust Board A number of such drains were improved out of the Municipal funds during the year, under report

Under-ground Drainage - The Trust Board is as usual attending to the underground drainage and the detailed report connected with it will be sent up by the Trust Board Although it is a long time since detailed surveys were made and the scheme for providing the underground drainage for the entire city was taken up, only just more than half the city has been sewered so far More than half of Mandy and Lashkar Mohallas remain unsewered As these areas are very congested the providing of underground drainage is an urgent necessity Several new extensions since formed for instance Vontikoppal, they have not been given underground drainage The Municipal Council has been repeatedly urging on the need for taking up this work immediately They have resolved that in view of the urgency of taking up the scheme and to connect the entire area of the city with the underground drainage, Government may be requested that out of the rough estimate of six lakhs of rupees required for the purpose a sum of Rs 2/- lakhs may be given as an outright grant, the Trust Board paying two lakhs and the balance of two lakhs being met by the Municipality. As regards the Municipal quota of expenditure, the Municipal Council resolved that a request may be made to Government to grant a loan of Rs 2/- lakhs repayable in 10 instalments, a sum of Rs 20,000/- from out of the drain and sanitary cess

being ear-marked for this purpose It was also resolved that a special establishment be sanctioned for undertaking the work and completing it at the latest with-in two years These proposals are yet under consideration before the Trust Board

Cast Iron Pipes - For want of funds the usual contribution of Rs 1,000/- towards the cost of cast iron pipes supplied by Mysore Iron & Steel Steel Works, Bhadravati, could not be paid during the year under report The balance outstanding payment to Bhadravati Iron Works on this account works out to Rs 5175-14-0

Drain Repairs - Many drains which had been opened as storm water-drains had to be repaired as they were considerably damaged in a number of places Wherever these drains we were badly damaged, they had to be rebuilt The slight damages were got repaired by engaging masonary gangs and by supplying them with necessary materials such as sand, chips, cement, etc , The system of repairing the drains by engaging masonary gangs resulted in considerable savings for the Municipality A number of drains which were in disuse were renovated There are many more drains which require repairs The necessary provision has been made to take up this work during the current year The expenditure for drain repairs during the year under report was Rs 7492/-.

29 Water-supply and Maintenace - As usual the distribution and supply of water to the Mysore City, and the execution of works relating thereto, are under the control of the Sanitary Engineer, The estimates for the water works, are received from the Sanitary Department for countersignature by the Municipality and sent back after countersignature for execution by that Department The estimated cost of works is also paid in advance so much so the advances paid are outstanding to a large extent with the Sanitary Department and there is delay in the execution of the works

A sum of Rs 1,21,031, was outstanding at the beginning of the year, against the Sanitary Department towards advances given for water works In addition thereto a sum of Rs.44,506/- was advanced during the year for fresh works The amount on account of the outlay of the works executed and the refund received was Rs 22,254/- leaving still a heavy balance of Rs 1,43,283/- outstanding against the Department towards advances given for water works

This procedure has therefore involved in unnecessary delay and correspondence in the execution of the works, as the Municipality has no control, except advancing the money required for the works, and heavy adgances will be outstanding, the accounting of which and watching its adjustments will also involve cumbersome heavy duty

In order to avoid these complications, and to ensure the prompt execution of the water works with a view to the adequate supply of water, the question of taking over this control entirely by the Municipality, has been under correspondence and is pending orders of Government

There were in all during the year 7213 water connections of which 6196 cases related to flat rate tax, 698 were charged to excess rate and the remaining 398 cases related to the use of water for non-domestic purposes

170 fresh tap connections were given during the year of which 142 were for house connections and the remaining 28 related to public taps

The question of metering the houses in cases where the rental value of the houses ranged from Rs 160 to 200 per annum, was dropped in view of the Council Resolution Nos 874 and 2 passed on 31-7-1943 Much difficulty was experienced in obtaining proper and adequate supply of water all over the city during the year under report, and especially in the latter half of the year, the position became more acute and complaints from all quarters of the city poured in numbers

month after month which were all referred to the Superintendent, V V Water Supply Works for redress The question of improving the water-supply in the city has been engaging the attention of the Municipal Council and special meetings were held in this connection to find out ways and means for the better supply of water The city has expanded by leaps and bounds and several new extensions have been formed It is ascertained that there has been inadequate supply due to the pumping capacity at the Belagula Pumping Station, having gone very low In order to increase the pumping capacity it is proposed to purchase a standbye unit of 10 H P the cost of which has been estimated at Rs 60,000/- as against the original estimate of Rs 20,000/- The Municipal Council have agreed to meet the cost, and the Sanitary Engineer has been addressed to take early action in this behalf Estimates for the construction of overhead tanks in important places have also been since sanctioned.

In order to meet the acute situation for water, the Municipal Council in their Special Meeting held on 10-2-1944, made a detailed discussion on the subject and passed the following resolutions

(1) The Superintendent of the Vani Vilas Water Works be requested immediately to take up these works for which the Municipality has already sanctioned the necessary amounts

(2) This Council is of opinion that filtered water as far as possible be used up only for domestic purposes.

(3) This Council is of opinion that the system of 'Ferruling' be introduced as an experimental measure only in such parts of the city in cases where the flow of water in the taps is more than one gallon per minute

(4) This Council is of opinion that all Industrial concerns, parks and gardens be requested to sink wells in order to minimise the use of filtered water from the taps for their use

(5) This Council is of opinion that the Superintendent, V V Water Works should be requested to furnish with a Mohallawar list of house connections, to be ferruled in the city

(6) Further resolved that the Superintendent, V V Water Works be requested to kindly draw up definite programme of rotation control and supply of water in the various parts of Mysore City, the public being informed about the regulated hours by means of hand bills, notices, etc , regarding the control and supply

The Water Works Department was addressed to take early action in respect of the above resolution, As a result of which water-supply was made at regulated hours The hours of supply at the several parts of the City were duly notified by the issue of hand bills The other proposals are in the course of execution Even after this, the water-supply was not satisfactory and loud complaints poured in The Director of Public Health was requested to visit the area and give necessary suggestions He had been here on 8.4.1944 and after inspection of the distribution system in the city, attended the Special Meeting held on that day when the question of improvement of water-supply was discussed threadbare On the statement made by the Director of Public Health, at the meeting, the Council resolved as follows -

"That in view of the assurance given by the Director of Public Health that he would see to the improvements on the lines discussed within a fortnight, and that if it is not possible he would give an alternative scheme This Council would await the report and the President be requested to call for another meeting to consider the report after it is received "

In the meanwhile, the shortage of electric power and also the necessity to preserve the lines of the pumping machines made it essential to bring down the city supply limited in proportion to the pumping capacity at the Head works

In consultation with the V V Water Works Superintendent, certain proposals in this behalf as arrived at in the meeting held in the President's office room on 24-5-1944 copy of which is given below* were placed before the Municipal Council in their meeting held on 29-5-1944 when they approved of the same except item No 8 which was referred to Ways and Means Committee Water Works The V V Department has been requested to take action on this behalf

The Ways and Means Committee in their meeting held on the 24th June 1944 discussed the subject regarding the levy of minimum flat rate of twelve rupees per annum on all house connections in the city, and passed the following resolution

" The subject was discussed at length and after considering the various aspects of the proposal to enhance the flat rate the Committee feels that this is not the opportune time to take up the question of increasing the flat rate, since we are making efforts to prevent wastage of water, and thus save expenditure; the Committee recommends that metering of all houses may be taken up early and houses which according to investigation are using large quantity of tap water being metered immediately - although the rental value of the houses may be below Rs 200/- "

In connection with the general shut-down of the current due to the accident to the Generating Station at Shivasamudram on 19-5-1944, there was no supply of water to the City on that day and much anxiety was created At this juncture, special arrangements were made to supply water through the Municipal lorries to certain parts where there was urgent need The Municipal wells were all - hankonised and made available for use the public being apprised of this by the issue of hand bills Fortunately, the water-supply was restored in the evening of the same day

In order to examine the several questions connected with the water-supply, proposals have been made to Government, regarding the appointment of a Committee, with the personnel thereto, and orders are awaited thereon

30 Buildings -

A consolidated and comprehensive list of all the Municipal Buildings has been maintained and due provision has been made for their annual maintenance A list of the Municipal buildings with the capital cost and amount required for maintenance at 1½% of the capital cost is appended

In the Municipal Offices, the improvements under progress during the previous year, were all completed, the most important of them being (1) water proofing the terrace on the southern wing (2) improvements to the Health Section Laboratory (3) improvement to the Councillors Chambers well equipped with up-to-date furniture and other requirements and providing also a flush latrine thereto

(4) Construction of additional public baths and urinals Many original works could not be taken up for want of building materials, and necessary funds therefor The Municipal Office Building was white washed and coloured so as to give a decent view of the building The Octroi Office building situated near the Bus Terminus was extended and additional accommodation provided for, during the year

The Hospital building at Vani Vilaspuram was completed out of the contribution paid by Mr K Seetharama Rao and further improvements to the same are under progress out of the contribution paid by Mr Gopalachar The proposed Women's Hospital in Chamundipuram at the junction of Manantoddy Road and Viceroy road at a cost of Rs 45,000/- could not be started during the year as administrative sanction to the same could not be obtained in time

At the rate of 1½% of the Capital cost, the total amount required for repairs to buildings comes to Rs 9104/- per annum The expenditure under this head amounted to Rs 5246/- For want of funds a number of buildings could not be repaired

The Town Hall was greatly improved during the year and a new R C C case was constructed in the southern side The stage and side screens were repainted and the entire stage was improved On account of the several improvements effected to the Town Hall, there was a great demand for the use of the Town Hall during the year and the income from the Town Hall amounted to Rs 12,468/-

The receipts and expenditure related to the Town Hall for the past five years, are given below -

Year	Receipts	Expenditure
39-40	3663	4065
40-41	5247	5247
41-42	3916	4505
42-43	8985	9235
43-44	12468	11045

From the above, it will be seen that the figures under both receipts and expenditure were the highest on record as compared to previous years figures as a result of the several

improvements effected to the Building There are many more improvements to be effected for which estimates have been prepared, so that it may serve the present requirements - in connection with the several performances such as Dramas, Dancing Singing or Cinema

At present the Town Hall is not fit for running a Cinema, When public lectures with screening of educational films have to be arranged we have to indent on the services of private theatres The building has therefore to be improved so as to make it fit for conducting cinemas The Municipality contributed only a sum of Rs 500/- towards Town Hall during the year

Model House construction -

With the expansion of the city, by leaps and bounds, the population has also very rapidly increased There are very many houses of the old type with ugly appearances in the heart of the City There is therefore great dirth for sanitary and well ventilated houses The need for such houses is very keenly felt by the middle class people, who cannot afford to construct such houses The Municipality has therefore undertaken to build houses of the model type, well designed and furnished with up-to-date requirements It is the object of the Municipality to see that the Mysore City is filled with such model houses very rapidly by rotating the model house fund, constituted for the purpose, as rapidly as possible and meeting the demand from the increased population consisting of 37500 families for whom there are only 22,000 houses the shortage being 15,000 houses Until this demand is met, it will not be possible to bring down the rental value of buildings, which has now gone very high, and help the poor people in securing houses at low rates of rent

The Mysore Municipality Model Houses Fund was started from the year 1941-42 The amount realised from the sale of the houses constructed under the scheme, and the Municipal

grant of Rs 10,000/- were credited to this fund and 29 houses were were constructed out of this fund A sum of Rs 45,813/- was at the credit of this fund at the beginning of the year 22 fresh houses costing in all Rs 46,200/- were constructed in Krishnarajavanam during the year and these houses when sold in public auction, fetched a very fair price amounting to Rs 73,000/-, which was credited to the Model Houses Fund which had at its credit a sum of Rs 91,251/- at the close of the year under report The type of model houses constructed during the year in Krishnarajavanam, has been very much appreciated by the public The amount realised by the sale of these houses is far above the cost of construction This indicates the popularity of the design of the houses and the necessity for such houses in the city has become great Much progress could not be achieved in this respect for want of sufficient building materials The Municipality had to make arrangements for the supply of the required materials to the contractors for the houses constructed Now that the fund has developed to a considerable extent, necessary provision has been made for the construction of some more houses, under the scheme Arrangements have been made for constructing 36 model houses during 1944-45

Poor House Construction - No work was done under this scheme for want of materials and the required funds, during the year. For want of funds no provision has been made under this head in the Budget for the current year also.

Construction of Bus Shelters - New Bus Shelters could not be constructed for want of building materials such as iron and cement The existing bus shelters were however greatly improved and maintained

Burial Ground - The Mantaps and urinals attached to the cremation ground near Chamundi Hills were improved, and the bath room attached to Jodi Thenginanamara burial Ground was improved and put into service The roads leading to burial grounds were greatly improved and a cause-way across the halla ne

near Jodi Thenginamara Burial Ground was also constructed

In order to create facilities for the carrying of dead bodies, the Municipal Council have sanctioned the proposal to maintain a covered push cart at a cost of Rs 300/- The following proposals made in this connection have been approved by the Council

(1) To make the cart available to all classes of people requiring the use of the same

(2) To levy a fee of Re 1/- in each case for carrying a dead body to the burial ground, the President being authorised to exempt in deserving cases

(3) the responsibility for the proper use of the carts and its safe return will be with the person who takes it for the purpose

(4) The cart will on requisition be made available to the Police Department also on payment of the prescribed fees

These proposals have been submitted to Government and orders thereon are awaited

Public Baths and Urinals -

Two public baths in Subbarayanakere two in Paduvarahally along Adi Pampa road and the public bath at Adikarnatakapuram and Madigere and Mandi Mohalla were all put into service Most of the old public baths and urinals which were not - functioning on account of some defect or other, were improved and put into service The construction of a new public bath and urinal was started in Nazarabad, which was almost completed during the year Public Baths sanctioned for other places could not be started for want of funds and building materials Necessary provision has been made therefor in the current year's budget

Erection of playing apparatus -

The playing apparatus sanctioned during the previous year for the several places were erected A new set of playing apparatus was also provided in Eranagere

Improvement to Swimming Ponds and Dhobi Ghat -

The improvement works of the Swimming Ponds near Kukkarahalli tank were all completed during the year and the swimming

pond was put into service The Dhobi ghats were improved The female and male ponds were made free from the growth of weeds and shrubs, and the area behind Kukkarahalli tank was drained off into a central drain A number of shoulders, preventing breeding of musquitos all over, were also provided The man-taps by the side of swimming pond and by the side of Kukkarahalli tank bund were greatly improved The expenditure under this sub head amounted to Rs 3064/-

Maintenance of water lorry and Steam Road Rollers -

There are three lorries in the Engineering Section, one water lorry, another Trust Board Lorry and the third Avenue lorry For all consolidation works and watering streets, the Municipal Water Lorry is employed and no water charges to consolidation are paid to the contractors For carting gravel, sand and other articles of the Municipality the Trust Board lorry is employed For watering avenue plants and for carrying manure, red earth, sand etc , required by the avenue plants and also for bringing huge plants the avenue lorry is employed The need for two more lorries having been felt by the Municipality the same have been secured under the lease/lend system which is sanctioned by the Government But they are employed for the fuel transport work and will be used for Municipal works after the fuel supply is improved The repairs to the lorries of the Engineering Section are done by the existing staff under the supervision of the Engineer No repairs of any kind have so far been made by any firm for the past three years The required parts are purchased and the foreman in charge of the lorries with the help of the drivers and cleaners has been attending to repairing works No lorry was stranded for more than three days at a time inspite of the lorry being very old and rickety

There are two rollers in the Municipality, one Steam Road Roller and another Diesel road roller The Diesel roller did not work for six months, as the engine was under repair It was however repaired and put into service recently and both

are working in good condition The expenses under this head amounted to Rs 5749/-

Loan Works - Under loan works the number of well works started during the previous year were all completed, during the year Most of them being fitted with hand pumps These well with hand pumps served a useful purpose for the supply of water at a time when electricity failed on 19-5-1944 due to the accident at Shivansamudram, the expenditure under this head was Rs 3152/-

Tools, Plants and Contingencies - The expenditure under this head was Rs 3317/- The tools were purchased to the absolute minimum requirements this year The old tools such as pick axes, mumties, Banalies, buckets, iron pots etc , were got repaired which are used by the gangs The articles which were absolutely beyond repairs were rejected and condemned Under furniture, particularly no expenditure was incurred for purchasing new materials, as the old articles were got repaired and used The carpentary gang was maintained in the Town Hall throughout the year for preparing a number of side racks, tables, benches, stools, almirahas, out of the old released teakwood materials and the acquired houses This method considerably increased the number of furniture without incurring heavy cost

General - The total expenditure by the Public Works carried out by the Engineering Section during the year under report worked out to Rs 2,35,758/- as will be seen from the details given in the enclosed statement No 21 in respect of the several items of work executed during the year In view of the heaviness of work in the section on account of the several works and the disposal of business relating to takarar petitions, disposal of licensed papers and attending to court work the Municipal Council sanctioned three additional suboverseers for the year The execution of the work is therefore attended with utmost economy and efficiency A request is placed before the Municipal Council to continue the services of these Surveyors For the execution of work during the current year a provision of Rs 2,38,000/- has been made in the current year's Budget as

against the estimate of 3 lakhs of rupees proposed by the Engineering Section

31 Compensation - The work connected with the acquisition of the properties for the improvement of the city is being attended to by the City Improvement Trust Board and the acquisition of properties is made by that Board after taking the approval of the Municipality In view of the heaviness of acquisition work on account of the several improvements taken up and also of the big scheme relating to the formation of the Elgin Fountain Road, the services of a special Land Acquisition Officer has been entertained by the Trust Board with the sanction of the Government the Personal Assistant to the Deputy Commissioner being put in temporary charge of this work he being given a duty allowance of Rs 50/- p m for attending to this work The passing of awards relating to the payment of compensation in respect of the properties acquires is attended to by the Land Acquisition Officer

32-(E) Public Health, Convenience and Conservancy -

The Health Officer was in direct control of the Health Department of the Municipality during the year as before and conservancy arrangements were satisfactorily attended to under his supervision with the help of the subordinate staff Particular attention was paid to the sanitation work and arrangements were made for the strict supervision over this work so much so the sanitation of the city is quite good The Municipal Councillors went on an health round visit almost every month and after inspection of the Mohallas made useful suggestions and action was taken to carry out these suggestions During my inspection almost everyday I paid particular attention to this item of work The progress report of the work turned out by the Sanitary Inspectors daily were obtained and reviewed with instructions for the betterment of the work in this connection intensive cleaning campaign as in Bangalore City was also started during the latter part of the year and the work was got done by the Saturday gang Under this arrangement particular places

were selected and the cleaning work closely supervised, the Municipal Councillors and the subordinate staff being also present on the occasion As a result of these measures the public health of the city was maintained in good condition The roads in Mysore City are far superior to those elsewhere and are very clean Besides the city standing as it is at the foot of the Chamundi Hills enjoys naturally a selubrious climate The public health of the city on the whole during the year was quite good except for the prevalance of plague and cholera which were imported into the city There were only a few cases of cholera during the year but the cases of plague were more than in the previous year Necessary preventive measures were adopted to combat the disease and check its spread The number of births during the year was less than the previous year by a small number of 55, but there was increase in the number of deaths by 581 The percentage of the infant mortality was also less than in the previous years

Hotels and catering houses - The following business concerns which confirmed failry to the Municipal Act and Byelaws were licensed during the year The amount of license fee realised is also noted against each -

Name of the concern	Number licensed	Amount of license fee realised
(1)First Class Hotels and Coffee Clubs	17	850
(2) Second Class	103	2565
(3) Soda Factories	18	375
(4) Sweetmeat shops such as Bakeries, Tea Shops etc	208	2250
(5) Dangerous & Offensive trades	468	2655
(6) Shaving Saloons	150	150
(7) Private mutton stalls	17	102
(8) Fish stalls	10	30
(9) Medical shops registered	4	120
Total	995	9067

The routine inspection of the above trades were carried out

as usual by the Departmental Officer The licensing of Hotels, Coffee houses, bakeries etc , were done carefully in conformity with the rules prescribed in this behalf and wherever necessary prosecutions were launched The total number of prosecutions launched during this year including the pending cases in the beginning of the year was 699 Out of these 100 cases were withdrawn 268 were convicted and the rest left pending at the close of the year The total amount of fines realised during the year was Rs 2,503/- The scope of work in the Health Office Laboratory has also increased and samples of several articles of foodstuffs etc , were examined in the Laboratory The report on the work done by the Laboratory during the year 43-44, is appended below -(See Appendix No 1)

Anti-Malaria work in the City - Anti-malaria operations such as treating the wells, hallas, pools, pits, drains etc , whereever mosquitoes were found breeding with Paris Green and Malarioil were systematically carried on in the city A special staff was employed for this purpose and the work turned out by the anti-malaria staff during the year is indicated below - (See appendix No 2)

33 Sanitary Progress and defects - As usual the work of Town Planning and effecting improvements in the city is taken up and attended to by the City Improvement Trust Board supplemented by the City Municipal contribution The question of shifting small industries and trades which are situated in the heart of the city near the residential quarters causing nuisance thereby has been seriously engaging the attention of the Trust Board and the Council The formation of the industrial suburbs to a far off place is being worked out The detailed report connected with the City Improvement will be furnished separately by the Trust Board

Housing of sweepers The Municipality has undertaken the housing of sweeper and the sanitary quarters from year to year A provision of Rs 4,000/- has been made for the construction

of more huts for sweepers during the current year 44-45 No progress was made under this head during the year under report for want of funds

Over-crowding and slum clearance - With a view to preventing the overcrowding and promote the clearance of slum areas in the city, the Trust Board has been acquiring properties in the conjested portions with the approval of the Municipal Council The scheme relating to the formation of the Elgin Fountain - District Office road has been recently sanctioned by the Government It has been ordered to be worked out in four stages, the first stage being taken up during the current year and the remaining three stages in the coming three years A Special establishment has been sanctioned for the increase of work as a large number of acquisitions have to be made in this connection, the Personal Assistant to the Deputy Commissioner being placed in additional charge of the Land Acquisiti work The work connected with the scheme is proceeding accordingly After the scheme is fully worked out a large portion of the slum area along the line of the propose road will be cleared The question of shifting the industrial concerns to a far off place from the residential quarters, is also being attended to by the Trust Board The under-ground drainage work was being done only from the Trust Board funds formerly As the work of underground drainage was carried out very slowly for want of funds, the Municipality thought that it would be better to expedite the work by giving contribution from the Municipal funds also It was found however that the Municipal funds were very meagre to meet this demand this year It is now proposed to request the Trust Board, to do this work out of Trust Board funds only

The maintenance of sewer submains was however attended to by the Municipality

Amenities to sweepers and scavengers -

The sweepers and scavengers have been provided with suitable huts and a few houses also constructed for them They are given all the usual amenities of the city life Necessary pro-

provision is being made year after year for the construction of quarters to those people They are given the dearness allowances sanctioned, as in the case of other employees

As usual, they were allowed to purchase the food grains from the Municipal stores, Society

The rules regarding the payment of gratuity in respect of sweepers and other permanent employees who are not entitled to the benefit of pension or provident fund, were sanctioned in Government Order No L 7720-1/M1 11-42-123 dated 27-1-1944

Government in their order No L 6552-4/M1 111-41-150 dated 31st December 1943 approved of the rules and forms for instituting and regulating the Provident Fund Scheme for the benefit of the sweepers and other non-pensionable employee of the Municipality The Municipal Council, while recording the Government Order, resolved that the scheme be brought into effect from 1st April, 1944 As several registers and accounts connected with the scheme had to be maintained, the entertainment of an additional staff for attending to the work, was considered necessary As approved by the Municipal Council, Government sanctioned in their Order No L 1041-5/M1 11-43 dated 5-4-1944 two clerks one on Rs 30/- and another on Rs 25/- in grade Rs 25-1-40 for a period of six months The staff was entertained and the scheme was put into operation from 1st May 1944 As many as 1058 persons are subscribing to the fund and 669 applications with eligibility certificates have been obtained from the subscribers and action is being ta to get the applications from the remaining persons also

A total sum of Rs 1753-14-0 has been recovered towards the Provident fund from the subscribers and a sum of Rs 906-8-0 has been paid towards the Municipal contribution to the fund The scheme has afforded a great advantage to the sweepers and other employees of the Municipality

A Sub-Committee has been formed to see to the working arrangements The sub-committee mat only once during the year A Special officer was deputed by the Comptroller to examine the adoptability of the several registers and forms to be maintained in this connection The Special Officer who recently visited this office examined the forms and registers prescribed The prescribed registers and forms have not yet been received and action is being taken to get the early supply of the same On receipt of the registers, the necessa postings have to be made

34 Local Fund Dispensaries - The number of Local Fund Dispensaries in the city continued to be 7 as in the previous year

Appendix No XIII shows the details of cost incurred from the Municipal funds and the number of patients treated in these Dispensaries during the year 43-44 It will be seen therefrom that the number of patients treated in these dispensaries was 374529 as against 409633 last year

The total cost incurred towards these Institutions during the year amounted to Rs 9477-15-8

Itinerant Dispensary - In regard to the proposal for starting an Itinerant Dispensary in the City, Government directed that it is considered unnecessary to start the same as adequate medical facilities already exist in the city, as intimated by the Law Secretary in his letter No L 246/M1 11-42-12 dated 7th July 1943

35 Midwives and Maternity -

As in the previous year, the total number of midwives paid for from the Municipality continued to be 7 These were attached to the seven Local Fund Dispensaries in charge of Sub Assistant Surgeons

Statement No XIV shows the number of cases treated by these midwives and the cost incurred on account of their pay from Municipal Funds during the year 1943-44

447 cases were treated by them during the year as against 561 cases and 411 children (220 male and 191 females) were born alive A sum of Rs 2352/- was incurred towards the cost on account of the pay of these midwives

These midwives with the co-ordination of those working in the Gunamba Maternity and Child Welfare Trust were directed to make a house to house survey and collect statistics in respect of the cases to be treated

One Mr P N Sangappa a leading merchant of the city offered to pay half the cost of building quarters for the compounder and midwife attached to the Dispensary in Vontikoppal extension, the estimated cost of which was Rs 2,500/- Similarly Rao Saheb Papiah Setty of Madras offered a donation of Rs 8,000/- towards half the cost of constructing the dispensary building with quarters for the Sub Assistant Surgeon and midwife and compounder in Narasimharaja Mohalla and Chamundipuram The Municipal Council while accepting the donations generously offered by the gentlemen, agreed to meet the other half of the cost in both these cases Government in their Order No L 6505-8/M1 43-17 dated 31st December 1943 approved of the proposal and sanctioned the rules relating to the utilisation of the rent to be realised from these quarters towards the cost of the diet of poor patients and medicines or injunctions of such patients The Municipal Engineer has been requested to take early action for the construction of the building

The proposal for the construction of a Womens' Hospital in the city out of the donation of Rs 20,000/- generously given by one Mr Mohan Das Tulsi Das is yet pending Detailed estimates were got prepared The total cost of the building including the residential quarters of the staff has been estimated at Rs 40,000/- The Municipal Council have agreed to bear the recurring charges towards the cost of the entire pay of Lady Assistant Surgeon, the cost of Europe medicines being met by Government The proposals submitted to Government are pending orders,

Vital statistics -

In order that the statistics collected are properly - analysed and classified, it is necessary that the clerical agency working at present, should be well-trained With a view to give the necessary training proposals have been made for getting the clerks trained in the statistical section of the Public Health Department, Bangalore and the Director of Public Health has been addressed in this behalf

Registration - The Registration work is attended to by the Sub-Registrarsof Births and Deaths Since the men appointed to these places are not experienced and trained in the work of collecting statistics, satisfactory work cannot be expected of them It is therefore necessary that trained men should be appointed for this purpose A proposal has been submitted to Government, for the replacement of the Sub-Registrars of Births and Deaths and Vaccinators by the appointment of Assistant Sanitary Inspectors, in order that the work may be turned out - satisfactorily and they would be useful for the executive work also Orders of Government on this proposal are awaited

Creche -

A Creche for taking care of the children of women working in the factories, which was opened during the year 41-42 continued to work during the year also The Municipality paid as usual a monthly grant of Rs 60/- towards the Institution In addition thereto, other Milk Centres also continued to work during the year and the Municipality contributed a sum of Rs 670/- per month towards these Institutions, as noted below -

	Amount of contribution per month
(1) Vani Vilas Milk Centre	Rs 120/-
(2) Mallamma's Milk Centre	Rs 200/-
(3) Subramanyam Milk Centre	Rs 200/-
(4) Meenambal Centre	Rs 150/-
(5) Creche near Silk Factory	Rs 60/-
Total	Rs 730/-

Reports on the working of these Institutions are obtained before payment of the Municipal contribution

36 Indigenous Hospitals

The number of grant-in-aid Indigenous and Allopathic Medical Institutions that existed in the city during the year was 20 as against 17 in the previous year, as per details furnished in statement No XIII

Municipal Ayurvedic Dispensary -

The Ayurvedic Dispensary in Krishnaraj Mohalla was as usual maintained by the Municipality during the year The number of patients treated in this Dispensary during the year was 80,029 as against 84072 in the previous year

The scale of pay of the Pandit and the compounder working in this Institution is on the same basis as that obtaining in the Government Ayurvedic College, and this has created facilities for the interchange of hands as and when found necessary

Towards the construction of a combined Ayurvedic and Unani Hospital in Bangalore City, the Municipal Council resolved to donate a sum of Rs 10,000/- Rs 5,000/- being paid during 43-44 and the remaining Rs 5,000/- being paid in five annual instalments or earlier if possible This was approved by Government in their Order No L 6282-5/M1 99-43-100 dated 22-12-4

Grant-in-aid to Vaidyashalas and Davakhanas

During the year under report, the Sacred Hearts' Dispensary, five Hakims and 13 Pandits were given grants from the Municipal funds As per Government Order No 778-9/Muz 350-40-3 dated 4-11-1941 these Institutions are periodically inspected by the Principal of the Ayurvedic and Unani College and the Superintendents of the Unani Hospitals The Health Officer also inspects these Institutions and furnishes a certificate as to their working before grants are paid At present there are 19 Grant-in-aid Institutions in the City of which 5 are Unani Dispensaries, 13 Ayurvedic Dispensaries, and the remaining one is the Sacred Hearts Dispensary The grants paid to these Institutions, are noted below -

-73-

Name of the Pandit or Hakim	Monthly grants paid.
(1) Sacred Hearts' Dispensary	Rs 40/-
(2) Mr Syed Khudavand Hussain	25/-
(3) Pandit Krishnaraju	25/-
(4) Hakim Nawab Mir Isuf Ali Khan	25/-
(5) Mrs Humayan Begum	25/-
(6) Mr R Venkata Raju	25/-
(7) P N Chandrabhan Singh	25/-
(8) R S Narasimha Murthy	25/-
(9) T S Thirumalachar	20/-
(10) S Shivaswamy	20/-
(11) S M A Shakoor	20/-
(12) Pandit Dasiah	15/-
(13) M S Singa Pandit	15/-
(14) V Gopala Rao Heggade	15/-
(15) M Sampath Iyengar	15/-
(16) S K Ranganatha Rao	15/-
(17) K Chennakeshava Sastry	15/-
(18) Hakim Mir Azam	15/-
(19) Mariyappa (Grant raised to Rs 10/- from Rs 5/- p m from July 1944)	10/-
Total	390x12 = Rs 4,680/-

The total grant paid to these Pandits and Hakims works ou to Rs 4,680/- per annum

The standardisation of the scales of pay of the Ayurvedi Pandits and Hakims has been sanctioned and their scales have been fixed in grade Rs 30-1-40 per mensem as per Government Order No L 2845-65/CB 74-40-6 dated the 9th December 1942 in order to attract the qualified men for the posts and to improv the efficiency of the several Institutions The revised scale has not been given effect to in this Municipality for want of funds, and the Institutions are all being maintained on a gran -in-aid basis with the result that these Pandits and Hakims ar giving up the Institutions gradually as and when they get chances of the revised scales of pay in other Municipalities and District Boards The Municipal Council have resolved to adopt the new scale of pay if Government grant a subvention of Rs 4,000/- A reference has been made to Government in this behalf and orders are awaited

37 Other medical Institutions subsidised from Municipal funds

There is only one such Institution in the city viz , Sacred Hearts' Dispensary in Mysore South, for which a monthly grant of Rs 40/- is paid by the Municipality This Institution is said to be working satisfactorily

38 Plague, Cholera and other charges.-

The expenditure under this head amounted to Rs 9507/- during the year as against Rs 7041/- in the previous year The details of the expenditure are given below -

(1)	Contribution for the maintenance of the E D Hospital	Rs 4,000/-
(2)	Plague charges	Rs 1,000/-
(3)	Cholera charges	Rs 200/-
(4)	Anti-rat Campaign Charges	Rs 3,000/-
(5)	Disinfection Establishment and Contingency	Rs 1,307/-
	Total	Rs 9,507/-

39 Vaccination - Vaccination continued to be compulsory during the year A total of Rs 24265 vaccinations were performed in the city in the year as against 31874 in the previous year Of these 6432 were primary and 17833 were revaccinations

Under primary vaccination 6163 cases were successful and under revaccination 1876 cases were successful

Four vaccinators of whom two were women, were maintained by the Municipality, and in addition, the Sub Registrars of Birth and Deaths also did vaccination work

As in the case of the Sub Registrars of Births and Deaths, the Vaccinators are also proposed to be replaced by the appointment of Assistant Sanitary Inspectors so that more useful work could be turned out in the direction of Health propaganda, general sanitary work and special ameliorative work in the sweepers colonies and A K colonies etc

40 Veterinary charges - The Veterinary Dispensary in the city continued to be under the control of the Veterinary Department and the Municipality paid a contribution of Rs 420/- per annum as usual

41 Registration of Births and Deaths etc., Birthsrate

Statement No XVI shows the Births and Deaths with causes, in the Municipality for the year 43-44 as compared with those of the preceding year

The total number of births during the year was 5066 as against 6126 last year There has been a considerable decrease in the number of births during the year as compared to the last year's figure The birth rate calculated on the population per mile worked out to 33 69 as against 40-53 last year

4421 deaths from all causes were registered during the year as against 3840 cases last year, resulting in an increase of 581 cases The death rate worked out to 29 02 per mile as against 25 36 in the previous year

Infant Mortality - 575 infants under one year of age died during the year giving an infant mortality rate of 113 50 per 1000 live births, as against 725 cases in the previous year, bearing a corresponding rate of 80 39

Plague - There were 69 attacks with 59 deaths of which 9 attacks and 7 deaths were imported cases as against 5 attacks and 3 deaths in the preceding year The services of the five local Sub Assistant Surgeons in the respective Mohallas were also availed of, for attending to the inoculation work The total number of inoculations done during the year was 9524 as against 47 in the previous year The inoculation work was done on an intensive scale and the spread of the disease was thereby checked without allowing it to grow into a virulent type Pamphlets on plague were distributed to the masses, And anti-rat campaign was also carried on A temporary gang consisting of two Health Probationers, four Assistant Sanitary Inspectors, 16 maistries, and 32 coolies were entertained for four months from 1944 October 1943 to January 1944 and again from February 1944 two Assistant Sanitary Inspectors with four Gangs were entertained for the purpose As a result thereof 7062 houses were fumigated during the year

Cholera - There were nine imported cases of cholera with seven deaths during the year as against a total of 136 attacks with 83 deaths in the previous year The prevalence of this disease was very much less than in the previous year

Small-pox - There were 39 attacks with 18 deaths including

6 imported attacks with 2 deaths during the year as against 65 attacks with 16 deaths in the preceding year

Influenza - There were seven fatal cases from this disease during the year as against 19 cases in the previous year

Relapsing fever - No case of relapsing fever was reported during the year

Malaria - 93 deaths were registered from this disease as against 226 cases in the previous year The deaths due to this disease were very much less than in the previous year, as a result of the anti-malaria operations conducted on an intensive scale

Other fevers - 208 deaths occurred from other fevers during the year as against 42 cases in the previous year 4036 deaths as against 3420 last year, were registered from other causes

Disinfection - As soon as information was received of the suspected cases relating to infectious diseases, the infected places were thoroughly disinfected

376 houses were disinfected during the year as against 1218 in the previous year

Sanitation - The cleaning of the city was systematically attended to by the sweepers and their work was closely supervised by the respective Mohalla Sanitary Inspectors and the Health Officer During my inspection particular attention was paid to this item of work Daily reports from the Sanitary Staff as to the progress made in the intensive cleaning along with their routine work were obtained and reviewed Besides, intensive cleaning campaign work called Saturday.Gangwork was also started This system of cleaning work consists in mobilizing the several Health and Engineering gangs numbering between 500 to 600 workmen and taking up a particular locality for the purpose of general cleaning, petty repairs to roads and lanes, cleaning of tunnels and drains, removal of rank vegetation etc As a result thereof the roads in the city were

kept clean and the sanitation in the Mohallas was maintained in a good condition This system is found to give remarkable results

42 Public Gardens and Buildings - As in the previous year, the Peoples' Park and Cheluvamba Park and the Rangacharlu Memorial Hall continued to be under the control of the Municipality The cost of maintenance of public gardens and buildings this year amounted to Rs 6111 as against 5071 in the previous year A sum of Rs 1748/- was spent during the year towards improvements of the existing parks and the formation of small triangular parks at road junctions The old parks were in a neglected condition without any repairs for want of special grants A number of improvements were effected in all the parks during the year out of the small amount available The practice of putting up flower beds all over without proper attention, was discontinued and greater attention was paid to the planting of shady trees in the parks and the maintenance of lawn in good condition The lawns were improved greatly for people to come and squat in the evenings and a number of shady trees were also planted In Cheluvamba Park, fresh plots were laid out and the entire garden was improved considerably This park won a cup in the Garden competition held during Dasara in October 1943 In Ambale Anniah Pandit's Park along Chamaraja Road the lawns were considerably improved and the central drain was trimmed and properly graded Planting in the gaps of the fencing all round was done and compound wall was constructed in a few place for protection The Radio Booth in this park was improved and stone seats were provided for the convenience of the people to sit and hear music from the radio In Kantharaja Urs Park, the lawns and fencing were greatly improved and the old Radio was replaced by a new one In Meelad Bagh Park the compound wall was improved and the lawn maintained in a good condition

43 Markets and Slaughter Houses -

(1) Markets - As in the previous years there were 6 markets including the two small vegetable markets at Eranagere and Vani Vilasapuram The revenue derived from the markets during the year amounted to Rs 81761 as against Rs 77,113 resulting in considerable increase in the revenue due to the realisation of shop rents, market fees etc , being more than in the previous year It is necessary to maintain a special gang for attending to petty repairs promptly in the markets In Devaraj Market, a regular masonary repair gang was main -tained which attended to most of the repairs in the entire market area such as painting of floor slabs, repairs to walls, painting works, patching up of concrete floors, repairs to drains, repairs to ceiling and terrace, repairs to doors, windows etc By this method, it was possible to attend to all minor repairs and avoid complaints from the shop-keepers and considerable savings in the expenditure under annual repairs were also effected The expenditure under annual repairs was Rs 3986/- during the year In order to maintain the Devaraja Market in an efficient condition and to effectively supervise the work certain proposals are under consideration for effecting improvements The Health Officer and the staff frequently inspected the markets and attended to the destruction of unwholesome articles of food, fruits, vegetables, sweets etc , and the offenders were dealt with according to Municipal laws

(2) Slaughter Houses - As in the previous year, there were two slaughter houses during the year in the city The income from the slaughter houses during the year was Rs 21,530/- as against Rs 18,183/- in the previous year resulting in an increase of Rs 3347/- These slaughter houses are under the supervision of a Veterinary Inspector The slaughter houses were frequently inspected by the Health Officer and his staff 75812 animals were slaughtered during the year as against 77618 animals in the previous year The animals slaughtered were as follows

Animals	43-44	42-43
Sheep	52324	54270
Bullocks	3493	3764
Goats	16251	15781
Cows	2378	2559
Buffaloes	1356	1244
Total	75812	77618

As the Sheep Slaughter House at Ediga is close to the new extensions and the new Procession Route and will in the near future be surrounded by residential buildings, action is being taken to shift the same to a suitable place The Council have decided to dispose of the present building and to utilize the same for constructing the new building

44 Avenues - The Avenue Establishment of the Municipality, consists of an Avenue Inspector and an Assistant Inspector with special gangs employed working under the supervision of the Municipal Engineer A great number of ugly trees and plant were removed and replaced by new ones during the year The existing avenue trees were maintained in an efficient condition and the overhanging branches projecting towards the roads and obstructing street lights were all lopped off The total number of avenue plants during the year was 720 With the expansion of the city by forming new extensions the avenue work has considerably increased and plantings had to be attende to on a large scale Besides, a Nursery of plants has been maintained in the Sewage Farm which has to be carefully looked after In view of the increased work proposals have been made for the revision of the scales of pay in the avenue establishment The existing avenue trees in the city have all been numbered and a register of avenue trees has been maintained

Government in their order No L 7272-4/M1 39-43-42 dated 18-1-1944 have sanctioned the estimate of Rs 5,000/- towards planting and maintenance of avenues in the city out of the Trust Board Fund

45 Fairs and Festivals - Under Fairs and Festivals the expenditure during the year amounted to Rs 7631/- as against

Rs 7897/- in the previous year A special welcome arch had to be constructed at the Railway Station Circle in connection with the visit of H H The Maharaja of Travancore in Jan 44 in addition to the usual pendals put up during the Birthday and Dasara festivities As the old pendal was rickety and badly damaged an estimate was sanctioned for renovating the entire pendal, as per a new design and it was made ready for the Birthday in July 1944 This new type of pendal with simpler architectural design was very much appreciated by the people

46 Sewage Farm - The extent of the Farm at the beginning of the year was 234¾ acres and no fresh area was added on to the farm during the year It is under contemplation to acquire about 80 acres in the south-east of the Farm and bring it under cultivation The seasonal condition was on the whole favourable for the farm operation during the year The total rainfall for the year was 32 24 inches as against 32-13 inches in the previous year The farm area is cultivated as follows -

Kinds of cultivation	Extension of cultivation
(1) Rhodes Grass	50 acres
(2) Neper "	3¼ "
(3) Guinea Grass	¾ "
(4) Ginger	4 "
(5) Vegetables	21 "
(6) Avenue nursery	2¼ "
(7) Lucerane	½ "
(8) Papia	2 "
(9) Banana	7¼ "
(10) Grazing area	30 "
(11) Area under cultivation in front of compost	2 "
(12) Roads, septic tanks and office	23 "
(13) Dry land	8 "
(14) Compost Yard	21 "
(15) Mangoe Gardens	4 "
(16) Lands newly acquired and yet to be brought under cultivation	55 "
Total	234¾ acres

Besides, the above there are 1700 cocoanut trees of which 1400 are fruit yielding ones

Improvements to Sewage Farm - A number of improvements were effected in the Sewage Farm during the year under report

A weir was constructed across the Central drain to divert the flow into Mr Veeraraja Urs Garden by preventing the stagnation sewage in the central drain A concrete road bridge was constructed across the central main halla for the proposed road across the sewage farm running east to west joining Bangalore-Nilgiri Road The existing dry cattle shed was greatly improved and the construction of a new dry cattle shed was nearing completion A sweet water well was dug with pumping arrangement and providing for the over-head tank, pipe-line and distribution system etc , to irrigate about 8 acres of land in the south-west corner of the sewage farm for vegetable cultivation A pump- well was also constructed ~~for~~ to give fresh water connection from the central halla leading from the septic tank A pump was errected at this place so that dilute treated sewage water may be pumped to an area of about 20 acres of land on the eastern side of the sewage farm for vegetable cultivation For want of current these pumping units could not work It is expected that with the working of the pumping units there will be a considerable increase in the supply of vegetables to the Mysore City A platform is also constructed for washing night soil carts The expenditure under this head amounted to Rs 8847/- These improvements will considerably add to the increase of income from the Sewage Farm The following improvements are proposed to be taken up during the current year 1944-45

(1) Bringing an area of 20 acres under vegetable cultivation in the newly acquired lands

(2) Planting one thousand Bananas in the old Nepere grass plot

(3) Extending the Rhodes grass cultivation by another 5 acres close to old dry cattle shed where it is possible to get sewage for irrigation

(4) Increasing the number of behive coloniesin the farm

(5) A total provision of Rs 41,600/- as against Rs 28,608/- in the year under report has been made for effecting the improvements in the Budget for current year

~~Septic tank~~
Septic Tank - The sewage water of the city is led into this tank and got filtered The filtered water is used for the cultivation of the farm F F

For cleaning the silt deposited in the three septic chambers a temporary establishment of 12 gangmen is employed This silt is sold for purposes of manure In view of the increase in the population of the city the sullage water that is led into this septic tank comes in greater quantities so much so the capacity of the tank is inadequate The question of having a duplicate set of septic tank is under correspondence

Vegetables - Both Indian and English vegetables are grown here and arrangements made for the sale of the vegetables at the Sewage Farm and for the supply of the same to the subscribers at their houses Similar arrangement also exists in respect of grass grown in this farm The cocoanut trees have been leased out for a period of 3 years for a total sum of Rs 10 650/- commencing from the year 1942 The Sampige (Champaka) flowers have been leased out for a period of three years from the year 1942 for a total sum of Rs 1500/-

Revenues - The total income realised from the sewage Farm under all heads during the year was Rs 51288-3-0 as against Rs 42099-4-0 in the previous year The expenditure incurred was Rs 19,850-7-10 as against Rs 17199-12-9 in the previous year It is gratifying to note that there is considerable increase in the income of the farm From a comparison of the figures of the previous years, it is seen that the income is the highest on record and that there has been a steady increase of the revenue from year to year The farm is thus developing in importance There is plenty of scope for effecting further improvements in the farm The dry area also requires to be brought under cultivation In order to improve the supply of pure milk to the city which is a long felt want, it is proposed to start a Diary Farm as an adjunct to the Sewage Farm The scheme is being worked out by a Special Committee constituted therefor and the Director of Agriculture has formulated certain proposals and the working expenses were estimated at Rs 30,000 as per the literature on the scheme furnished by him
The Director of Agriculture recently visited the Sewage Farm

on 3-10-1944 and after inspection, a meeting of the Committee ~~of the~~ was conducted in his presence, and conclusions were arrived at, to open the Diary Farm on the lines suggested by the Director of Agriculture These proposals will be placed before the Municipal Council for their approval

In view of the considerable increase of work in the Sewage Farm and the starting of a Diary Farm, proposals have been made to suitably revise the establishment so as to provide for carrying the work connected with Sewage Farm as well as the Diary Farm to be started

Compost - The manufacture of compost of street rubbish and night-soil was continued till the close of Jan 1944

Since February 1944, the new process of composting in trenches as introduced by the All-India Compost Scheme of the Government of India is under progress according to this the compost manufactured is sold at cheaper rates

According to the old method of composting 1604½ tons of compost were manufactured upto end of January 1944 and the amount realised therefrom was Rs 1916-6-0

~~According~~ t

Dry Cattle Shed - The Dry Cattle shed in the Farm has become very popular The number of cattle admitted during the year was 532 as against 398 in the previous year The Revenue realised from the cattle shed during the year was Rs 5495-7-10 as against Rs 4166 last year As each head of cattle is charged at Rs 2/- per mensem and maintained at the Farm, this has afforded great ~~xxx~~ convenience to the people to let their dry cattle into the farm There has been a steady increase in the number of cattle admitted under this scheme At present the Veterinary Inspector has been looking after the Municipal Cattle as also the dry cattle, for which he is given an allowance of Rs 25/- per mensem As this arrangement is found not satisfactory and great care is to be bestowed, in respect of the large number of cattle, the Municipal Council sanctioned the appointment of a Salustry on Rs 25/- the allowance paid to the Veterina

Inspector being discontinued The Director of Public Health has posted a hand and he has not yet joined duty

Municipal Cattle - During the year under report, six pairs of bullocks were purchased at a cost of Rs 3140/- Almost all the cattle with the exception of nine pairs of bullocks purchased in the previous year are becoming unserviceable due to old age. It is proposed to replace them gradually as funds permit

Municipal Workshop - Ordinary repairs to rubbish carts, night -soil carts, motor lorries are as usual attended to here It is proposed to enlarge the workshop so that all repair work pertaining to the Municipality may be attended to here

Poultry - This section requires to be improved At the beginning of the year, there were four ~~xxx~~ hens only One cock was received on 2-9-1943 The hens were all sold and a sum of Rs 16-1-8 was realised thereby It is proposed to have this poultry section shifted to a different place as it is not thriving in its present place and action is being taken in this behalf The beehive section is also not working properly and requires to be improved

With the proposed reorganisation providing for independent officers of the Agricultural, Veterinary and Horticultural Departments there is every hope that the activities of the farm will vastly improve and bring higher income

47 The Municipal Council ceased to be the local Education Authority from 1941-42 since the control over the schools was made over to the Education Department on 1st July 1941, in accordance with Government Order No E 4884-98/Edn 55-40-9 dated 24-6-1941

G. Contribution and grant-in-aid

48, Public libraries and Reading Rooms - The Municipality continued to pay the contribution to the libraries reading rooms and Lady's Institutions doing literary and social work in the city, as indicated below -

		Amount
1	Ramakrishna Reading Room	120/-
2	Public Library	200/-
3	Anjumane Ithehade Reading Room	150/-
4	Vysya Youth League	100/-
5	Literacy Union (Town Hall)	100/-
6.	Subsidiary reading rooms	805/-

(7)	Bhaginiseva Samaj	150/-
(8)	Vanitha Sadan	150/-
(9)	Mathrumandali	100/-
(10)	Mahila Samaj	100/-
(11)	Mahila Sadana	125/-
	Total	2100/-

Besides, the following contributions were also made -

1	For Propaganda works	Rs 200/-
2	Rescue Home	Rs 860/-
3	Sishu Vihar and Nursery Schools	Rs 860/-

As in the previous year a sum of Rs 1,000/- was paid as an outright grant to the Deaf and Dumb Institute in the city besides other grants made to the non-official Instutitions

Physical Culture Institutions

All the marginally* noted five Institutions in the city ~~received~~ received grant during the year as in previous year The total amount of grant paid to these Institutions amounted to Rs 1,440/-

1	Town Hall P C T	Rs 25/-
2	Lokaranjan Mahal	Rs 25/-
3	Atlas	Rs 25/-
4	Maruthi	Rs 20/-
5	Vyamashala	Rs 25/-
	Total	Rs 120/- per mensem or Rs 1440/- p a

Lumpsum grants were also made to the following Institutions -

1	Civic and Social Progress Association	Rs 300/-
2	City Scout Council	Rs 200/-
3	Baby Show	Rs 300/-
4	Leprosy Relief Fund	Rs 100/-
5	Red Cross Society	Rs 25/-
6	Horticultural Show	Rs 75/-
7	Hindi Prachar Sabha	Rs 300/-
8	Harijan Seva Sangha	Rs 300/-
9	Lumpsum grant to other deserving Institutions	Rs1920/-
10	Market Show	170/-
11	Literacy Campaign	1000/-
12	Aid to Cottage Industries	1000/-
13	Scholarship to three students studying in the Sri Jayachamarajendra Occupational Institute at Bangalore at Rs 15/- per month for ten months	450/-

The Municipal Council in their resolution No 834 dated 29-5-44 sanctioned a grant of Rs 10/- per mensem to the Maharastra

School in Kabir road run by Mr B Narayana Rao, to educate Maharata girls and boys

The quarterly reports on the working of these Institutions are being obtained, before the grants are paid

Miscellaneous

49 Interest on Debt

A sum of Rs 24,578/- was paid during the year on this account

50 Public Debt Repayment of loans - A sum of Rs 29,500/- was paid towards principal during the year and the balance of loan at the end of the year was Rs 7,63,000/-

51 Audit of account and embezzlement

The system of pre-audit by the Comptroller's office staff continued during the year One Senior Auditor with two clerks of the Comptroller's office is working in this Municipality to audit the accounts relating thereto, their cost being debited to the Municipal funds All the bills of the Municipality are audited before payments are made The revenue collections are also checked with reference to receipts and entries in the Khirdies and remittance of collection to the Bank or Treasury audited The D C B accounts relating to Municipal revenue are not being audited The sectional Officers have been instructed to get these accounts also audited so that their accuracy may be ensured No cases of embezzlement were reported during the year nor was there any case of serious irregularity The audit objections raised, were mostly objections regarding want of sanction of Council and Government, and other minor defects

Audit Objections - Including the number of objections pending at the beginning of the year, 126 cases had to be dealt with during the year Out of the total number of 126 cases 85 cases were disposed of leaving a balance of 41 cases pending reply at the close of the year All these cases were pending with the Sectional Officers They have been reminded to expedite

the disposal of the pending cases

Municipal Co-operative Stores and Society

The Co-operative Stores Society sanctioned for the benefit of the Municipal employees in G O No L 6382-84/M1 104-41-87 dated the 27th January 1942, continued during the year Out of the loan of Rs 25,000/- sanctioned by Government in their Order No 7434-8/M1 111-42-8 dated the 29t/30th January 1943, free of interest for one year, for the purchase and stock of necessary provisions in the stores a sum of Rs 10,000/- has been utilised and the balance kept in deposit Latterly the working of the Stores Society was found to be unsatisfactory and no satisfactory accounts for the stock and issue of the articles purchased were forthcoming The previous Secretary and the Directorate did not pay sufficient attention, with the result that there was utter mismanagement and confusion in the accounts This state of affairs was noticed by me during my inspection in November 1943, and the Secretary was instructed to arrange for the closing of the accounts for 42-43 and for holding a General Body Meeting Thereafter the annual General Body Meeting for 42-43 was held in the month of March 44 during the year and the working of the stores was discussed in detail As some shortages were brought to light the General Body have appointed internal Auditors to audit the accounts of the Society The Secretary was changed and a fresh Directorate was formed As the previous accounts required thorough overhauling and audit, in order to locate the exact difference, a separate Certified Auditor has since been deputed by the Registrar of Co-operative Societies and the work is proceeding

After the introduction of the Rationing scheme into the City, only the rationed articles are stocked and issued

The financial position of the Society cannot be said to be satisfactory as the transactions are very dull and the

income is not sufficient even to cover up the normal working expenses of the Society

The Municipal stores asked for a grant of Rs 2,000/- from the Municipality towards the maintenance charges of the Society, which the Municipal Council declined

With the meagre income of the society and the unsound financial position and bad management, the Society cannot sustain to exist

Opening of small industries

Proposals have been submitted to Government for the opening of a Khadi and Weaving Centre in the City

It is also under contemplation to ~~undertake~~ introduce the scheme for opening a hand made paper industry and the proposals in this behalf have been placed before the Council after obtaining a scheme and necessary advice from the Industries Department

G e n e r a l - There was considerable increase in the activities of the Municipality, during the year, and all the problems connected therewith had to be carried on, successfully though it involved in heavy work and responsibility

The work connected with the introduction of food rationing was successfully managed and satisfactory arrangements were made for feeding the poor, and the poor students by raising private subscriptions besides continuing the arrangements for feeding the poor with cooked rice out of the Gracious monthly grant of Rs 2,000/- made by H H The Maharaja of Mysore

The acute difficulty for fuel supply and water-supply was tided over and satisfactory arrangements were made therefor

There has been a noticeable increase in the income under (1) Octroi (2) Markets (3) Sewage Farm and proposals are on hand for augmenting the resources of the Municipality in other directi The income and expenditure of the Municipality have considerably increased and there is corresponding increase in correspondence also

The collecting staff have shown a very satisfactory progress in the collection of taxes The arrears left uncollected

are comparatively low, for which necessary steps have been taken

Public Works have been carried out on an intensive scale, though much progress could not be made in taking up original works for want of funds, and building and other materials A provision of Rs 3 lakhs has been made in the current year's budget under this item The sanitary condition was maintained in an efficient manner and adequate arrangements existed for effectively supervising the work of the subordinate health staff and sweepers The public health was generally good excep for the prevalence of plague and cholera in imported cases The propaganda work for educating the public on health matters, by means of lectures attended with magic lanterns, requires to be carried on a more intensive scale in order to improve the sanitation in the City The Health Officer has not been able to attend to this work satisfactorily as he is already burdened with the ordinary routine duties, which leaves him little or no time to attend to this work The Municipal Council have ther fore considered it necessary to appoint an Assistant Health Officer to attend to this work and proposals have been submitte to Government for approval

Sweepers have been provided with all the amenities as usual The Provident Fund Scheme was also given effect to durir the year

The systematic checking of the monthly arrear list of th several sections and inspections have greatly improved the working of the office

Conclusion - From the above report, it may be seen tha the administration of the Municipality continued to be satis-factory during the year under report It gives me immense pleasure to thank the Health Officer, the Municipal Engineer and the Revenue Officer who strived hard in rising to t h e occasion, and heartily co-operated in the successful conduct of the administration My thanks are also due to all the sub-ordinate staff in every section for their hearty co-operation in the quick despatch of business and other office routine

correspondence I had also willing and ready co-operation and assistance from the Vice-Presidents Messrs Mohamed Khalilulla and B Narayanaswamy, and my thanks are due to them

It is also a matter for appreciation that there existed a cordial relationship between the Municipal Executive and the Councillors during the year

I take this opportunity of thanking the Municipal Councillors for their continued interests, co-operation and valuable suggestions in the working of the Municipality

Appendix No A.

Report on the work done at the Health Office Laboratory, Mysore City, for the year 1943-44

Two Thousand Two Hundred and Fifty samples of all kinds were examined at the Laboratory during the year 1943-44 as against 2077 during the previous year, and of these, 393 samples of foods were examined under the Prevention of Adultera tion Act

Adulteration of Foods

248 samples of milk, 114 samples of ghee, 20 samples of butter and 11 samples of coffee powder were produced for analysis and 171 samples of milk, 5 samples of ghee, 3 samples of butter and 2 samples of coffee powder were found to be adulterated 126 cases of prosecutions were launched in respect of the adulterated samples and all of them ended in conviction The fines imposed in these cases ranged from Rs 2/- to Rs 50/- per case and the average fine per case was Rs 16 Nine cases were compounded and a sum of Rs 105/- was recovered as compounding fees 40 cases had to be struck off the roll, as some of these were received from private Institutions and the others had the requisite label notifying the fact of adulteration 26 cases are pending prosecution at the end of the year The total fines imposed in the cases ending in conviction amounted to Rs 2,009/-

The percentage of adulteration in the samples of food-stuffs collected for analysis was 46% as against 22 9% during the last year The adulterated samples of milk contained added water to the extent of from 10% to 72% and six samples contained added sugar The admixture of foreign fats from 20% to 76% was found in the adulterated samples of ghee and from 20% to 40% in the adulterated samples of butter The adulterated samples of coffee powder contained chicory admixed from 6 5% to 24%

Under the scheme for levying small fees for analysing samples of food-stuffs, 10 samples of milk were received from the Cheluvamba Hospital, 1 sample of coffee powder, 2 samples of milk and 6 samples of ghee from the K R Hospital, and 97 samples of ghee and 8 samples of butter from the Palace Mothi-khana suppliers A sum of Rs 136/- was collected as fees durin the year

Proposals to include oils under the Aduleration Act and proposals to introduce licensing of all milk vendors in the City were submitted to the Municipal Council for approval

Detailed instructions were issued to the Sanitary Inspectors for systematic and proper collection of food samples for analysis

Equipment - Additional equipment such as a Butter Refractometer and a Hot Air Electric steriliser were purchased during the year The Laboratory section was fitted up with up-to-date Laboratory benches, electrical fittings, etc

Distinguished Visitors

During the year the Laboratory section was visited by the Dewan of Mysore The working of the section was explained together with charts and statistical graphs Among the distinguished visitors to the Laboratory section were Dr Sir J C Gosh, Director of the Indian Institute of Science, Bangalore The President, Commissioner and the Municipal Engineer of the Bangalore City Municipality, Mr Pulla Reddy, I C S , Commissioner, Madras, the Chinese Consul-General and the Vice-Consul General, Drs F C Fang, Kong and Wang of China, Dr M C Albukerque, Bangalore, the Members of the Re-organisation Committee of the Mysore City Municipal Council, Dr C N Acharya, Chief Bio-Chemist and 12 Provincial Bio-Chemists of India on a study visit regarding compost and sewage disposal in the city

App No.I continued

Demonstration — The students of the Bangalore Engineering College were taken round the Municipal Farm and the various items there were explained to them Practical demonstrations were given in the bacteriological analysis of water to the students of the University Medical College, Mysore in this Laboratory

Exhibition - As usual the Chemical and Bacteriological sections in the Mysore Dasara Exhibition were fitted up

Graphs etc — Statistical graphs of Diseases and Laboratory work done were prepared and submitted Statistics of Plague and Diptheria which broke out during the year were maintained by the Section

Rodents — 203 rodents were received for examination for Plague durin the year and 12 of them were declared to be Positive for B Pesti 21 samples of articles cyanogassed in the godowns were examined

Water Analysis — During the year, 818 samples of tap water were examined 68 samples of well water and 2 samples of pond water were collected for bacteriological analysis and 68 samples of water were received for Chemical examination The results of analysis in respect of 141 samples were unsatisfactory and the analysis was repeated in 102 cases till satisfactory results were obtained The Superintendent, Vani Vilas Water works, was requested to take necessary action to rectify the defects in the taps giving unsatisfactory results and on receipt of reports from the Superintendent after the taps and the pipe lines were flushed for sometime, samples were recollected and tested Samples of water from the Palace wells were periodically examined and the wells were treated with bleaching powder Samples of water were received from the Kharapur Camp, Chatnahalli Military camp, Belagula Chemicals and Fertilisers, Ltd and Chamarajanagar Taluk

Special Analysis - Systematic collection and bacteriological analysis of water samples from the end points in the City were done during the Cholera period from 20-7-1943 to 28-7-1943 Samples of water from several taps in Lalitha Mahal were daily tested from 2-8-1943 to 20-8-1943 in connection with the visit of the Viceroy to the City and again from 13-1-1944 to 20-1-1944 in connection with the visit of H H The Maharaja of Travancore

Particulars of samples of food-stuffs examined	
1 Samples of food stuffs examined	293
2 Bacteriological analysis of water	888
3 Chemical examination of water samples	68
4 Water samples for free chlorine test	645
5 Samples of sweets	5
6 Wheat and Wheat flour	2
7 Samples of rice	7
8 Samples of paddy	2
9 Cyanogassed materials	21
10 Bread samples	3
11 Aerated water	1
12 Cakes	4
13 Motion for Ova	1
14 Blood smears for M P (Positive 2)	9
15 Rodents examined for Plague(Positive 12)	203
Total samples of all kinds	2250

Annual report of work done by the Anti-Malaria Staff for the official year 1943-44

The identification of larvae and adults done during the year

No of larvae identified	No of carrier species C	Fl	St	No of adults identified	No of carrier species C	Fl	St	Number of wells stocked with fish	Number of pools stocked with fish	Remarks
14,240	394	222	267	12,842	389	205	207	2488	11	

The activities to control the breeding of mosquitoes

1 There was oiling in the City during October and up to November 20th and had to be stopped thereafter for want of oil

2 Anti-Malaria minor Engineering works were done in the following places -

1 Doddakere Maidan by the side of Race Course Nursery A stagnant area measuring 80'x60'x3' was filled up By the side of Zoo gardens, a pit measuring 300'x100'x1½' was filled up Doddakere main drain measuring 500'x60'x4' was cleared of silt and the surrounding area containing several pits was levelled up

2 Gobli Katte Tank 50 cartloads of rank vegetation was removed from the margins

3 Swamps of Kukkarahalli Tank A stagnant area measuring 140'x65'x2' was filled up A drain of 800'x1½'x2' was cleared of silt

4 Kukkarahalli Tank 100 cartloads of rank vegetation was removed from the margins of the tank and was burnt

5 Krishnaraga cremation Ground Four drains of the following dimensions were cleared of silt (1) 500'x2'x3', (2) 400'x2X6', (3)1000'x2'x3', (4) 400'x2'x3'

6 Lingianakatte in Vontikoppal A portion of this katte measuring 80'x60'x3' was filled up All the drains of Gokulam were cleared of silt and the sides were trimmed

3 The spraying of Pyrethrum extract This was done in the following places -

1 Palace Body Guards These lines contain a total number of 160 houses and the spraying work was being done on all Fridays at the place

2 Lake View Spraying work was being done during the stay of the Dewan Sahib at Mysore Spraying was also being done in important Government Buildings, wherever the increase of mosquitoes was noticed

Special activities 1 During Dasara, the important areas concerned were all got oiled and spraying work done in all the buildings where guests were stationed for Dasara

2 During the visit of His Excellency the Viceroy of India, a survey of half a mile radious around Lalithamahal was made and all the breeding places were controlled A day before the arrival of His Excellency, all the chambers of Lalithamahal were sprayed with a mixture of pyrethrum ectract During his visit to the Exhib Malaria and Tuberculosis sections were arranged

P T O

3 Surroundings of III Infantry to the radious of about half a mile was surveyed during September 1943, and the complete area as controlled by oiling

5 Spleen survey Spleen survey was done as usual in the month of July 1943 by Dr Shama Rao, the III Officer attached to the Bureau of alariology and all the necessary help to him was rendered by the alaria staff of this unicipality During the survey, 6310 boys and girls below 12 years of age were examined in various Mohallas of the City The spleen rate was found to be 0 8%

NOTE The staff consisted of two Assistant Sanitary Inspectors and 18 gangmen working under the direction and guidance of the Health Officer till the end of October 1943, when one of the Assistant Sanitary Inspectors left service and since then the section is being managed with the remaining staff

MUNICIPAL AND LOCAL BOARDS

No L 7160—Ml 95 42 13 dated 17th January 1944

Whereas by Notification No L 16—Ml 95 43 7 dated 2nd July 1943 it was duly announced under Section 7 (1) of the Mysore City Municipalities Act 1933 that it was proposed to extend the limits of the Mysore City Municipality and whereas no objections are reported to have been received in response thereto the Government of His Highness the Maharaja of Mysore are pleased in exercise of the powers conferred on them under Sections 4 and 7 of the said Act to extend the limits of the said Municipality and to declare that the boundries thereof shall be as follows with effect from 15th January 1944 —

By Order

C NARAYANASWAMY NAIDU
Secretary to Government
Law Department

1 The bounday line of the City of Mysore commences at the new boundary stone 235 from the first furlong of the fourth mile on Yelwal Road and runs along the boundary line of Vijayasreepura Village to the South of Survey No 267 and skirting the same Survey Number runs along the North-eastern boundary of Survey No 268 and meets the South west corner of Survey No 271 of the same village Then the line runs North along the Western boundary of Survey No 271 and turning East at the North west corner of the same Survey Number meets the South west corner of Survey No 64 of Maragowdanahalli Village From this point the line runs along the Western boundaries of Survey Nos 64 65 67 and 69 of Margowdanahalli Village and meeting the South east corner of Survey No 68 of the same Village turns West and runs along the Western boundaries of Survey Nos 68 69 73 and 74 of the same Village Then the line turns East following the Northern boundaries of Survey Nos 75 and 76 of the same Village and runs North along the Western boundaries of Survey Nos 77 and 115 of Maragowdanahalli Village It then turns West skirting the Northern boundary of Survey No 180 of Kumbar koppal Village as far as the South east corner of Survey No 179 of the same Village Then the line turns to the North along the boundary of Survey No 179 and meets the North east corner of Survey No 184 then turns West along the Northern boundary of the same Survey Number and runs North along the Eastern boundaries of Survey Nos 178 176 168 152 and 151 of Kumbarakoppal Village The line then meets the North east corner of Survey No 151 and turns East along the Northern boundary of Survey Nos 153 154 155 157 Kumbarakoppal Gavatana and Survey No 158 as far as the North eastern boundary of Survey No 158 and then turns South along the eastern boundary of Survey No 158 and meets the North western corner of Survey No 119 of Maragowdanahalli Village From this point the line runs East and following the same cart tract runs along the Northern boundaries of Survey Nos 119 121 124 and 123 and crossing the Mysore Bela ola Road runs along the Eastern boundaries of Survey Nos 141 139 140 130 129 and meets the North east corner of Survey No 225 of the same Maragowdanahalli Village Then the line runs South east along the Northern boundaries of Survey Nos 224 223 4 and 5 and following the Eastern boundary of Survey No 8 of the same Village crosses the Mysore Arskere line within Survey No 8 and following the same cart track along the Eastern boundary of Survey No 9 crossing the Mysore Bangalore Railway line just at the South east corner of Survey No 14 of the same Village and going again still towards the east keeping the Northern boundary of Survey No 205 of the same village meets the Municipal Boundary Stone No 9 on the old Belagola Road

2 Then the line follows the Southern boundary of Survey No 192 of Maragowdanahalli Village till it meets the South east corner of Survey No 192 and from this point it turns towards the South keeping the Western boundary of Survey No 182 of the same Village and meets the South west corner of Survey No 182 and then the line turns towards the East keeping the Southern boundary of Survey Nos 182 181 and 180 of the same Village and turns in at the South east corner of Survey No 180 and going Northward forming the Eastern boundary of Survey No 180 meets the South west corner of Survey No 43 of Belavatha Village From this point the line runs towards North following the Western boundaries of Survey Nos 43 and 44 of the same village meets the North western corner of Survey No 44 and turning towards the East keeping the Northern boundary of Survey No 44 meets the South west corner of Survey No 45 of the same Village Then the line runs North along the Western boundaries of Survey Nos 45 and 46 of Belavatha Village meets the South east corner of Survey No 171 of Maragowdanahalli Village Then the line turns South west meeting the North eastern corner of Survey No 172 and runs along the North western boundary of the same Survey Number crosses the halla and skirting along the Western side of the halla following the Eastern and Northern boundary of Survey Nos 156 and 157 of the same Village and turning along the North eastern boundary of Survey No 152 of the same Village meets the tunnel to the halla at its junction with Coles Garden Road

3 From this point the line runs towards the North following the Western boundary of Survey No 164 of Maragowdanahalli Village till it meets the South east corner of Survey No 85 Belavatha Village Then the line turning towards the East crosses Coles Garden Road and runs along the Southern boundaries of the Survey Nos 84 and 83 of the same Village and turning towards North at the South east corner of Survey No 83 and running along the Western boundary of Survey No 81 of Belavatha Village crosses the road and meets the South west corner of Survey No 160 of the same Village

4 Then the line runs towards the East following the Southern boundaries of Survey Nos 160 and 161 meets the South west corner of Survey No 76 of Belavatha Village and turning towards North following the Western boundary of Survey No 76 runs in a North easterly direction forming the Northern boundaries of Survey Nos 166 and 167 of the same Village and meets the Bangalore—Nilgiri Road and at a point little beyond 250 feet from 3—85 furlong stone in the same road

5 From this point the line crossing the Bangalore Nilgiri Road and runs towards South keeping the Western boundary of Survey Nos 193 194 203 and 204 205 248 and 249 250 258 259 260 and 261 of Balavatha Village and meets the North west corner of Survey No 6 of the same Village Then the line turns east following the Northern boundary of Survey No 6 of the same Village and skirting Survey Nos 266 and 276 of the same village meets the South west corner of Survey No 273 Then the line runs towards the East following the Southern boundary of Survey Nos 273 and 234 meets the Old Seringapatam Road at the North east corner of Survey No 274 of the same Village Then the line runs towards the South following the Western boundaries of Survey Nos 134 135 and 136 of Devanur Village till it meets the South west corner of Survey No 136 From this point the line runs in a South easterly direction following the Southern boundaries of Survey Nos 136 137 and running along the direction of the cart track keeping the Northern boundaries of Survey Nos 144 and 143 of Devanur Village still runs further South following Eastern boundaries of Survey Nos 149 150 162 161 159 158 157 and 156 of Devanur Village and 53 and 55 of Erangere Village till it meets the North west

corner of Survey No 57 of the same village after crossing the cart tract From this point the line keeping along the Northern boundary Survey No 57 of Erangere Village meets the Nala at the North-east corner of Survey No 57 of the same Village and turns at this point towards the South running along the above Nala keeping the Eastern boundaries of Survey Nos 57 60 and 61 North eastern corner of 33 and skirting Survey No 32 and goes along the Eastern boundary af Survey No 30 of Erangere Village and meets the City Municipal Boundary Stone No on the Mysore Madevpur Road at fourth furlong of the first mile

6 From this point the line following the Northern boundary of Survey No 21 of Kyathamanahalli Village and skirting Survey No 19 runs North east along the Northern boundaries of Survey Nos 18 and 26 meeting the Nala or Stream at the North east corner of the same Survey Number of the same Village Then the line skirting the same Nala or channel runs South east along the Eastern boundaries of Survey Nos 247 and 3 till it meets the North east corner of Survey No 4 of the same village The line then runs south along the Eastern boundaries of Survey Nos 43 of Erangere Village crossing the cart track at the eastern boundary of Survey No 43 turns East on the Northern boundary of Survey No 53 as far as the north east corner of the same survey number and turns again south along the eastern boundary of Survey No 52 Then it turns west at the south east corner of Survey No 52 again turning south at the north east corner of Survey No 53 along the eastern boundary of that survey number as far as the south east corner of survey No 53 The line turns at this point to the east and runs along the northern boundary of Survey No 91 crossing the cart track It then turns south at the north east corner of Survey No 91 bisects Survey No 90 and reaches the south west corner of Survey No 92 taking a north easterly direction along the northern boundaries of Survey Nos 89 86 85 83 and 82 It then makes a turning at the north eastern corner of Survey No 82 and runs south along the eastern boundaries of Survey Nos 82 81 80 79 78 and 76 of Voddarpalya skirting the western boundary of Yeraganahalli Village Then the line turns to the west at the south east corner of Survey No 76 and runs along the southern boundary of the same survey number turning again north at the south western corner of Survey No 76 and meets the south east corner of Survey No 75 It then turns west then to the south and again to the west and runs along the boundaries of Survey Nos 75 and 73 and crosses the T Narsipur Road at the south western corner of Survey No 73 and meets the south east corner of Survey No 67 of Kyathamanahalli Village The line then turns south along the eastern boundaries of Survey Nos 62 and 63 and again turns west along the boundary of Survey No 63 as far as the north east corner of Survey No 64

7 From this point the line runs on the western boundary of Survey Nos 84 70 69 68 76 and 126 of Kurubarahalli Village passes along the southern boundary of Kurubarahalli village skirts off the Survey No 1 of the same village crosses the Chumundi Hill road meets the City Municipal boundary stone No 8 at the 5th furlong of the 1st mile

8 From this point the line runs along the northern boundary of Survey Nos 4 5 42 41 40 39 53 54 and skirting Survey No 135 of Kurubarahalli Village runs along the western boundary of Survey No 137 and turning again at this point towards the west goes along the northern boundaries of Survey Nos 18 17 16 15 145 146 and 151 of Kurubarahalli village and partially skirting Survey No 128 or goblikatte and partially traversing it passes along the western boundaries of Survey Nos 142 41 and 148 of the Mysore Kasaba village and meets the City Municipal boundary stone No 9 on Chamundi Hill Road *via* Goblikatte just near the Karanjee tank feeder

9 And from this point the line passes along the southern boundary of Survey No 140 and eastern boundary of Survey No 150 and skirting the Survey No 157 of Mysore Kasaba village turns towards south forming the eastern boundary of Survey No 159 and again turning toward the west and following the southern boundaries of Survey Nos 159 and 160 of the Kasaba village turns again towards south and goes along the eastern boundaries of Survey Nos 162 163 and 164 of the Kasaba village and again turning towards the west keeping the southern boundary of Survey No 164 of the same village meets the City Municipal boundary stone No 10 at 5th furlong of 90th mile of Bangalore Nilgiri Road

10 & 11 From this point the intending line runs south along the Bangalore Nilgiri Road and crossing the same road meets the south east corner of Survey No 217 and again crossing the Old Agrahar Road to Nanjanud at that point meets the south east corner of Survey No 230 Then the line turns west and runs along the south boundaries of Survey Nos 232 and 233 of the Kasaba village and turning south at the south west corner of Survey Nos 233 runs along the western boundary of Survey No 230 229 228 and 227 and skirting the Survey No 142 and keeping the northern boundary of Survey Nos 141 140 139 138 and 137 of the same village Then the line turns west and runs along the northern boundaries of Survey Nos 137 112 115 and 1 Then the line turns north skirting the Survey No 1 and runs along the eastern boundaries of Survey Nos 119 133 293 and 291 and crossing the line meets the south east corner of Survey No 290 the same village Then the line turning towards north goes along the eastern boundary of Survey No 290 and skirting Survey No 289 and keeping the southern boundaries of Survey Nos 287 286 and 284 of Kasaba village meets the City Municipal boundary stone No 12 at 90th mile of Mysore Manantody Road

12 From here the south western[illegible] of survey No 284 of Kasaba village the down in a south westerly direction hugging eastern boundary lines of Survey Nos 322 310 311 312 of Mysore and Survey Nos and 73 of Nachanahalli Then it goes [illegible] this point *viz* south east corner of [illegible] and running along the southern boundaries of Survey Nos 73 and 79 turns south at the north east corner of Survey No 77 After running a little way down along the western boundary of Survey No 77 it turns west again and meets after cutting through Survey No 119 a point in the eastern boundary of Survey No 118 of Sakadevanapura 50 yards from its north boundary taking a north easterly direction and keeping along the east boundaries of Survey Nos 113 and 112 (of Sakadevanapura) it turns east the north west corner of Survey No 81 of Nachanhally and after running in the same direction far as the south west corner of Survey No 63 Haradanahally it enters that village in a northern direction Running in the same direction and the western boundary of the Railway line in the village it meets the north eastern corner of Survey No 131 of Kannegowdanakoppal wherefrom the same northward direction and going along eastern boundaries of Survey Nos 132 and turns west at the north eastern corner of No 133 From here it turns west and after along the northern boundary of Survey No 1 turns north again at the south western corner Survey No 134 Running along the western aries of Survey Nos 134 136 and 175 and northern boundary of 175 it goes up north eastern boundaries of 176 and 177 and south western corner of Survey No 384 skirting thereby Survey Nos 134 13 of Kannegowdanakoppal

From this point the line runs along and western boundaries of Ka

village site and then turning towards the west just at the north west corner of the same village goes along the northern boundary of Survey No 193 of Malavadi village and then skirting Survey No 6 on the eastern side and going along the cart track to Kukkarahalli village keeping to the northern boundary of Survey Nos 5 8 and 12 of Malavadi village turns towards the north at the north west corner of Survey No 12 of Malavadi village and crosses the cart track keeping on the eastern boundaries of Survey Nos 26 25 and 2 of Kukkarahalli village and skirting the same village site on the south west crosses the Kukkarahally tank feeder channel near the kodi and meets the City Municipal boundary stone No 13 just at the junction of Jayalakshmi Vilas Road and Bogadi Road at 275 feet from the 1st furlong on the 2nd mile of Bogadi Road

13 From this point the line runs along the southern and western boundaries of Kannegowdana koppal village site and then turning towards the west just at the north west corner of the same village goes along the northern boundary of Survey No 193 of Malavalli village and then skirting Survey No 6 on the eastern side and going along the cart track to Kukkarahalli village keeping to the northern boundary of Survey Nos 5 8 and 12 of Malavadi village turns towards the north at the north west corner of Survey No 12 of Malavadi village and crosses the cart track The line then runs in a south westerly direction on the boundaries of Survey Nos 26 and 23 and turns towards the north and west and again to the north along the boundary of Survey No 22 Then it turns to the west along the northern boundary of Survey No 22 bisecting Survey No 19 and crossing the nala or channel to the west of Survey No 19 and runs along the northern boundaries of Survey Nos 208 205 and 204 of Thonachikoppal The line then turns at the north western corner of Survey No 204 towards the south running along the western boundary of the same survey number crosses the cart track and turns towards the west skirting the Thonachikoppal Gavatana to the north of Survey No 222 and then runs north skirting that village along the eastern boundary of Survey No 222 The line turns east at the north western corner of the village Gavatana along the southern boundary of Survey No 197 then turns again to the north at the south east corner of survey number and runs along the eastern boundaries of Survey Nos 197 and 198 as far as the north eastern corner of Survey No 198 It then turns towards the west along the southern boundary of Survey No 152 turns again in a south westerly direction at the north west corner of Survey No 198 running along the boundary of that survey number and the northern boundary of Survey No 190 The line then goes up to the north west at the south eastern corner of Survey No 185 running along the boundary of that survey number as far as the north western corner of the same survey number It then turns to the west along the boundary of Survey No 194 turns again to the south at the north western corner of that survey number and runs along the western boundary of the same survey number The line then turns south west at the north eastern corner of Hundi Putta Gadi along the southern boundary of the nala running to the west and turns to the north at the south eastern corner of Survey No 161 along the eastern boundary of the same survey number as far as the north eastern corner of Survey No 161 From this point the line turns east crossing the nala and Bogadi Road and meets the south west corner of Survey No 142 of Bogadi village

14 From this point the line turns north following the eastern boundary of the feeder channel and keeping the western boundaries of Survey Nos 142 141 and 131 of the same village Then the line after crossing the cart track from Bogadi village goes north long the eastern boundary of the channel and the western boundaries of Survey Nos 251 252 255 256 257 258 and 273 of Vijayasreepura and turning north east skirting the Kodihalla and keeping the north western boundary of Survey Nos 264 265 and 266 of the same village meets the boundary stone fixed 235 feet from the 1st furlong of the 4th mile of Yelwal Road

15 From the above description it will be seen that the City of Mysore includes within its limits the parts of Hinkal Padavarahalli Maragowdanahalli Belavatha Erangere Devanur Khyathamanahalli (including village site or Gavatana) Kurubarahalli Kasaba village Kannegowdanakoppal Kukkarahalli Bogadi Vijayasreepura Haradanahalli Nachanahalli Sakadevanpura Kumbarkoppal Voddarpalya and Thonachikoppal including Jayalakshmi Vilas Mansion and quarters on the west Tuberculosis Sanatorium and Banni Mantap and Motor Loop Road on the north portion of Narasimharaja Mohalla on the east and Sewage Farm on the south

Read Ml 115-45-6

Letter No Ml .C Per 28/Y 1944-45, dated the 26th October 1944 from the President City Municipal Council, Mysore, forwarding the report on the administration of the Municipality during the year 1943-44,

In connection with the records of the Ml Section

ORDER NO L-1392-8 Ml-115-45-6

DATED BANGALORE THE 28 ~~APRIL~~ August 19

Recorded

2 Boundaries The boundaries of the Municipality were extended by the inclusion of certain portions of Kumbarkoppal, Thonachkoppal and Vaddarapalya within the Municipal limits. The demarcation of the actual area was still under correspondence with the Revenue Department with the result that the total area of the Municipality remained the same as in previous years viz 12 75 Square miles

3 Constitution The term of the Municipal Council having expired on 2nd January 1944 general elections for the reconstitution of the Municipal Council were held and the re-constituted Municipal Council came into effect from 3rd January 1944 The total number of members on the Municipal Council was 31, of whom 24 were elected and 7 including the President were nominated Mr B S Raghavendra Rao continued to be the President of the Municipal Council till 1st November 1943, when he was succeeded by Mr Ramachandra Rao Bhombore who continued to be in charge of the office till the close of the year Mr

Mr M Mohamed Khalilulla continued to be the Vice-President of the Municipal Council, till 3rd January 1944, when he was succeeded by Mr B Narayanaswami

4 Meetings The Municipal Council held 12 ordinary 4 adjourned and 13 special meetings The average attendance at each meeting was 20.3 (1 official and 19 3 non-official)

5 Committees of the Council There were six Committees of the Municipal Council working during the year and they ~~met as usual and~~ transacted the business referred to them by the Municipal Council Several Sub-Committees were also constituted to assist the Committees

6 Rules and Bye-laws The following rules, bye-laws and amendments to byelaws were sanctioned during the year -

1) Rules for instituting and regulating the Provident Fund Scheme for the benefit of ~~the~~ sweepers and other non-pensionable employees of the Municipality,

2) Rules for the payment of gratuity in respect of sweepers etc , who are not entitled to the benefit of pension or provident fund

3) Amendment to the rule to ~~provide for~~ levy a license fee at a reduced ~~fee~~ rate of 6 annas for drivers of bullock carts

4) Amendment to the byelaws relating to dangerous and offensive trades so as to include the bamboo and timber trade therein

5) Amendments to the bye-laws relating to cattle sheds

7 Demand, Collection and Balance ~~The~~ Arrears at the beginning of the year stood at Rs 60,463 (Rs 82,407) The total demand under all the heads during the year was Rs 7,37,613

7,37,613 (Rs 6,58,714) Out of the total demand, a sum of Rs 7,23,556 ~~(Rs 6,80,668)~~ a, 6,80,658 including remissions was collected, leaving a balance of Rs 74,520 (Rs 60,463) The percentage of collection to the total demand was 90 2 as against 91 1 in the previous year The collection work cannot be said to be satisfactory Every endeavour should be made to collect all recoverable arrears before the close of the present official year

8 Incidence of taxation The incidence of taxation per head of population according to the census of 1941 works up to Rs 4-12-5 as against Rs 4-9-5 in the previous year

9 Finance The year began with a cash balance of Rs 65,448 The receipts and expenditure during the year amounted to Rs 11,32 899 and Rs 11,21,566 respectively, leaving a closing balance of Rs 76 781 A sum of Rs 29,500 towards principal and Rs 24,548 towards interest was paid on account of the instalment of the debenture loans of the Municipality that fell due during the year The Municipal Council should take steps to increase its resources, so as to be able to provide for amenities to its citizens in a larger measure

10 Public Works The expenditure under Public Works was Rs 2,35,758 ~~(Rs 2,15,15~~ (Rs 2,15,150) The up-keep and maintenance of roads buildings and drains continued to receive attention A new public bath and urinal were constructed in Nazarbad and 22 model houses were constructed out of the Model Houses Fund at a cost of Rs 45 434 were sold to the public The improvement works of the

Swiming Pond near Kukkarahalli Tank were completed during the year

11 Water Supply The control of water supply vested as usual in the Bureau of Sanitary Engineering The question of improving the Water Supply in the City, which has expanded considerably has been engaging the earnest attention of the Municipal Council

12 Public Health The health of the City was quite good except for the prevalance of plague, accounting for 69 attacks and 59 deaths against 9 attacks and 7 deaths during the previous year ~~A total of~~ 9 524 anti-plague inoculations were ~~conducted~~ carried out and 7,062 houses were fumigated ~~under the agency of~~ by employing special gangs Sanitary rules were enforced in respect of hotels ~~and~~ eating houses, bakeries etc The total number of prosecutions ~~launched~~ during the year including ~~the~~ pending cases in the beginning of the year was 699 Of these 100 cases were withdrawn 268 ended in conviction and the rest were pending at the close of the year Anti-malaria measures were continued The number of cases pending is heavy and arrangements should be made to bring them to disposal without any delay

13 Child Welfare Work Five milk centres including the creche near the Silk Factory continued to work during the year

14 The Municipal Sewage Farm The extent of the Farm at the beginning of the year was 235 acres The revenue and expenditure of the Farm were Rs 51 288 and Rs 42,099 respectiyely, resulting in a net profit of Rs 9,189 The question of starting a Dairy Farm as an adjunct

adjunct to the Sewage Farm is under the consideration of the Municipal Council

15 Compost The manufacture of compost out of street rubbish and night soil was continued till the close of January 1944 and a total quantity of 1,604½ tons of compost was manufactured and sold, yielding a sum of Rs 1,916 Since February 1944, the new process of composting in trenches as introduced by the All India Compost Scheme was under progress

16 General Out of the grant of Rs 2,000 graciously given by His Highness the Maharaja, feeding arrangements were made through the Municipal Agency and cooked rice distributed to the poor everyday Feeding of poor students was also arranged ~~for~~, the number of students fed being 157 With a view to alleviate the distress caused by the scarcity of fuel, the Municipal Council opened Fair Price Depots in different parts of the City

The question of constructing a Women's Hospital in the City out of the donation given by one Mr Seth Mohandas Thulsidas was under consideration

During the year, His Highness the Maharaja of Travancore, His Highness the Jam Saheb of Navanagar and His Highness the Maharaja of Kotah visited the City The Consul-General of the Republic of China, who visited the City, donated a sum of Rs 10,000 to be spent towards the activities of the maternity and child welfare centres and the feeding of the poor people of the City

The working of the Municipality during

the year was on the whole satisfactory
